RUTHERFORD HAS FINEST COTTON

County Leads Entire State In Growing Fields—Development Of Better Farming.

Rutherford county cotton growers have a better "stand" and the finest growing cotton in the state, according to the editor of The Charlotte Observer, who wrote as follows, following a visit to the county recently:

In the early days of the cotton crop one is accustomed to look for the best "stands" to the region around Maxton and Lumberton, in the "overlap" of the Marlboro soil, for cotton is usually knee high in the fields there before it is well above ground in this part of the belt. But times have changed on the farms. The women's clubs and the boys' clubs and the farm demonstration agents have been doing a work that is reversing the oldtime run of things, for, if one wants to see cotton well-advanced and almost ready for the thinning-out process, he must come up into the piedmont region, even into the counties in which it was not so long ago believed to be impossible to grow cotton. The finest growing fields of cotton in the State today are to be seen along the Wilmington-Charlotte-Ashville Highway, in far up Rutherford County, under the very shadow of the mountains. There are fine fields in Cleveland, soon to be the banner cotton-producing county in the State, but the Rutherford County growers are a little ahead.

"This excellent result in cotton growing in the region of the mountain dews, is a development of better farming. The farmers there are graduates in what is called intensive farming, a fact plainly manifest in the fine condition of the soil, which is as soft and as free from lumps as a garden spot. The soil, itself, is naturally rich, requiring but little fertilizer, if any at all, and proves particularly adapted to cotton.

"Another large crop in this expanded area of the cotton belt is the white potato, and large fields are now seen where in times past it was the potato "patch." The further one gets into the mountains, the finer the potato crop. No section of the state has made such marked advance in agriculture as the mountain region and it may come to pass that neighborhood pilgrimages, so long headed from the mountains and piedmont farms to the sandhills, will have a reverse movement and we will see sandhills farmers going up into the mountains to get pointers on potato, cotton and wheat growing.

"The Observer believes that the counties of Cleveland, Gaston, Rutherford, Catawba, Caldwell, Wilkes, Watauga and Avery are materially ahead of all counties in the State in soil working and farm production."

GET AT THE CAUSE!

Many Forest City Folks Are Showing How to Avoid Needless Suffering.

There's nothing more annoying than kidney weakness or inability to properly control the kidney secretions. Night and day alike, the sufferer is tormented and what with the burning and scalding, the attendant backache, headache and dizziness, life is indeed a burden. Doan's Pills—a stimulant diuretic to the kidneys—have brought peace and comfort to many Forest City people. Profit by this Forest City resident's experience:

Mrs. V. G. Lynch, Church St., says: "My little boy, Willie, was troubled with his kidneys. His kidneys acted far too often and the secretions were scanty. He seemed to have no control over the passage of the secretions. I had used Doan's Pills myself with good results and gave them to him. Doan's relieved him."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Lynch had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Where is the Power?

After all, POWER is the thing every driver of motor cars like to feel—and the pedal foot soon becomes very sensitive as to what is there.

The moment you "feel" a loss of power in your automobile engine—that is the time to bring it to us. We can soon locate the trouble and have you spinning along at the merry old clip.

In the majority of cases such overhauling, repairing or adjusting does not involve any great expense. It may be carbon, loose rings or pistons—or in the ignition and tuning.

Drive by one day this week. Let us "listen in" for a moment. We are experts on motor work.
