HOW TO KNOW YOU ARE EDUCATED.

When is one educated in the best sense of the word? A professor in the University of Chicago is said to have told his pupils that he should consider them truly educated when they could answer affirmatively these 14 questions:

1. Has your education given sympathy with all good causes and made you espouse them?
 2. Has it made you public-spirited?
 3. Has it made you a brother to the weak?
 4. Have you learned how to make friends and keep them?
 5. Do you know what it is to be a friend yourself?
 6. Can you look an honest man or a pure woman straight in the eye?
 7. Do you see anything to love in a little child?
 8. Will a lonely dog follow you in the street?
 9. Can you be high-minded and happy in the meaner drudgeries of life?
 10. Do you think washing dishes and hoeing corn just as compatible with high thinking as piano playing or golf?
 11. Are you good for anything to yourself? Can you be happy alone?
 12. Can you look out into the world and see anything except dollars and cents?
 13. Can you look into the mud puddle by the wayside and see anything in the mud puddle but mud?
 14. Can you look into the sky at night and see beyond the stars?
