DEMAND FOR TELEPHONES INCREASE AT LAKE LURE

Chimney Rock, Aug. 2.—The Rutherford County Telephone company, which has the network of wires reaching out in every direction in the Chimney Rock section, has been absorbed by the Piedmont Telephone and Telegraph company. Four new copper circuits are being strung to Asheville, two of which are about complete.

The demand for telephone communications has greatly increased recently with the beginning of work on the Lake Lure dam, which is to be 104 feet high, with a boulevard across the top. The shore line of Lake Lure will be 27 miles in circumference. Included in the general plans is provision for a relocated highway on the side of the mountains 75 feet above the present state highway, which will be inundated by the waters of Lake Lure. It will require a year to complete the work in which hundreds of men are now employed.
