FIRE DESTROYS CLINE HOUSE AT LAWNDALE

Fire of unknown origin destroyed the home and several outbuildings of Mrs. David Cline at Lawndale Saturday night about 8:30 o'clock. No one was at home at the time the fire was discovered, Mrs. Cline being on a visit to her daughter, Mrs. McBryde Poston in Shelby. The buildings as well as the contents were a complete loss except the piano and sewing machine which were removed by neighbors who gathered at the scene. It is understood Mrs. Cline carried \$3,500 insurance on the house and \$500 on the furniture which of course does not cover the loss.—Shelby Star.

Farmers who poisoned the boll weevil according to methods advocated by the Agricultural Extension Service now have complete control of the pest. Infestation counts run from nothing to 10 per cent where poisoning was done right and from 25 to 75 per cent where no poisoning was done report some county agents.

Aug 27, 28, 29, at the Royal Store.

While the county agent does not use the same methods practiced in the class room, he is a teacher and of great value when used by adult farmers says Director I. O. Schaub, of State College.
