ACCURACY

Simple home treatment gave quick, positive relief

How a lonely woman, snowbound on a remote farm, miles from a doctor, got quick and complete relief from the raging pain of neuralgia is told in this letter from Ontario, Canada.

"The pain in my head was driving me wild," she writes, "when I hap-pened to see a bottle of Sloan's Liniment on the dresser where my hus-band had left it. I gave it a trialand in no time the pain was gone. I slept peacefully the rest of the night."

And it is amazing—the quick, gen-uine comfort that Sloan's gives to every kind of muscular pain.

No need to rub. A little Sloan's patted lightly on-- and a healing tide of fresh, germ-destroying blood begins tingling through the aching place. Before you can believe it, the pain, swelling, stiffness are relieved and you feel yourself again. So clean and easy to use, too. All druggists-35 cents.

for the Qth consecutive year ... at the ational Automobile Shows

Again Buick has won first place in the motor car industry. This year, as in every one of the preceding seven, the public has invested more G-19-13 dollars in Buick automobiles than in other cars built by any member of the National Automobile Chamber of Commerce.

> This entitles Buick to first choice of display space at the National Automobile Shows in New York and Chicago.

For eight years Buick has dominated quality motor car sales, enjoying nearly a decade of leadership, while a host of other fine cars were striving for the place of honor held by Buick.

A better idea of the magnitude of this Buick .chievement may be obtained when you consider that to duplicate it, a motor car would need to capture first place now, then hold it continuously until 1934.

To have won the lion's share of public preference, year after year, for so long, conclusively shows superior merit in the Buick product.

Buick has built a better motor car, and public recognition has followed-has singled it out as the one car among all-which contains in the greatest measure the essentials of dependable, economical and luxurious motoring.
