

ALEXANDER NEWS

Alexander, Feb. 23.—The Alexander school gave a Washington-Lincoln entertainment Monday evening. The program consisted of songs, recitations, plays, minnettes, and an ode to Washington. Two girls from the seventh grade wrote a composition, each one on Washington and one on Lincoln. A large crowd was present to enjoy the exercises.

After the entertainment the Parent-Teachers Association held a short business meeting.

Policeman Callahan is still on the job. He discovered and arrested Wilfred Painter, of Spartanburg, S. C., for being intoxicated. After the arrest Mr. Callahan searched Painter and found a pint bottle half full of whiskey. Painter had the rest of the contents of the bottle in his stomach. He was carried to Rutherfordton for trial.

ELLENBORO NEWS

Ellenboro, Feb. 22.—The lady members of the faculty and Mrs. R. B. Tapp entertained Mrs. Jay Hicks last Friday afternoon at the Martin House with a miscellaneous shower.

Those in the receiving line were Mrs. R. B. Tapp, Mrs. J. A. Martin, Miss Edna Scoggin and Miss Cleo Burns. A contest was engaged in "Love in a Kitchen." The lucky ones were Mrs. E. E. Harrill and Mrs. O. C. Huston.

Mrs. Hicks was given a fish hook and told to fish and had a lucky catch for quite a while. She received a number of useful and handsome articles. Delicious refreshments were served by Misses Carson, Helms, Harrill and Burns. All went away wishing Mrs. Hicks a long and happy married life.

Mr. R. C. Turner is critically ill at his home here.

Supremacy Maintained through Features which Established Ford Leadership

Left-Hand Drive—

Originally introduced by Henry Ford on the Model T car in 1908 and since adopted for most American-made cars.

Three Point Motor Suspension— First used by Henry Ford in 1903, and a feature of the Model T power plant for eighteen years.

Dual Ignition System—

Dual ignition is provided for Ford cars, (1) the Ford magneto and (2) the generator and storage battery. This has been a great factor in establishing the Ford reputation for reliability.

Planetary Transmission—

Costs more to build than the conventional sliding gear type but gives better light car control.

Multiple Disc-in-oil Clutch—

The multiple disc clutch is generally conceded to be the best and smoothest type for any car. The Ford clutch runs in oil.

Thermo-Syphon Cooling System—

Extremely simple—always efficient. No water pump to require packing. Circulation of water is governed entirely by engine temperature.

Simple, Dependable Lubrication—

Exceedingly simple, combining the splash principle with gravity flow. No pump required.

Torque Tube Drive—

Henry Ford originated the Torque Tube in 1908—a driving principle now embodied in many of the highest priced cars.

"We have never lowered the quality of the car to reduce the price"
