**Run-Down
gave out easily**

"MY health wasn't any account at all," says Mrs. H. L. Cayton, of Washington, N. C. "I would start to do my housework and I would give out before I had done anything at all. I did not have any strength, and if I did the least thing it seemed to tax me so I could not finish. I was run-down sure enough. Several of my friends had taken Cardui and they said to me, 'Why don't you try it?' I knew I needed something to build up my general health and to increase my strength. Finally one day when I was recovering from a spell of sickness, I decided to try Cardui. I got a bottle and began to take it. I could notice that I was improving as my appetite got better and I did not give out nearly so quick. I took several bottles and I felt lots better. Two years ago I decided to take it again. It built me up and made me feel like a different person. It is the grandest medicine for women that I know anything about."
