A BRIEF SKETCH OF FOREST CITY PARENT-TEACHER ASSOCIATION

The Forest City Parent-Teacher association was organized September 20, 1920, with the following officers:

- Mrs. S. N. Watson, president.
- Mrs. F. I. Barber, vice president.
- Mrs. J. E. Caldwell, secretary-treasurer.

Twelve members were enrolled and the object of the association discussed.

This association is six years old and during these years has tried to be helpful in many ways. The first outstanding action was to buy a grand piano for which \$1,300 was paid. Next a set of books for the library which cost \$57.50, other books which cost \$20.00, a stove for the lunch room which cost \$35.00.

Books given as prizes to pupils for perfect attendance and teachers for best attendance at P. T. A. meetings around \$300. About \$25.00 has been given to national child welfare work—\$10.00 to pay expenses of delegates to state conventions. Several dollars have been spent to buy books and clothes for children who couldn't get them otherwise. We believe that \$2,000 would be a conservative estimate of the money made and spent by the Forest City Parent-Teacher association during its six years' existence. This money was made in various ways:

By rummage sales, flower shows, oyster suppers, Kiwanis suppers, selling candy, tablets and pencils, keeping booths at the fairs and many other ways.

Please don't think that this association has thought only of dollars and cents. Money seems to be a necessary evil and every organization that exists and makes any progress must have some money, but we feel that our association has done much more than make money. We have not lost sight of the chief object of the Parent-Teacher association which is to bring about a closer relationship and a better understanding between parents and teachers and parents and children and teachers and children. We feel that our association and experiences together have been worth more than they cost, if we hadn't made nor spent a dollar.

Forest City Parent-Teacher association met at the grammar school building, May 12, 1926.

Meeting was called to order by the president, Mrs. B. B. Doggett.

Do you know why BUICK 4-wheel brakes are mechanical

Buick 4-wheel brakes are built on the same sound mechanical principle as the two-wheel brakes you always have used.

The brake on the outside front wheel releases when turning a corner. The outside front wheel needs to turn in a larger circle to avoid skidding and Buick brakes let it turn.

And the operating parts of Buick brakes are steel drop forgings.

For safety's sake, and for easier driving, pick Buick and Buick mechanical 4-wheel brakes.

"A rolling stone gathers no moss"

"It's always seemed to me that these motorists who go shopping around and always buying any old gas never get anywhere at all. They never accumulate any dividends of motoring satisfaction. Instead, nine cases out of ten, they just bring a lot of grief home to roost: no pep in the old bus, no pull on the hills—always a chatter and a complaint from the engine.

"In the long run, it pays to stick to "Standard" Gasoline—always dependable."
