### Forty Pages Printed Already and Work Goes Forward Day and Night.

(Special To The Courier.) Rutherfordton, June 9.—Forty pages of Rutherford County's big feature historical and pictorial edition of The Rutherford County News, have come from the press and the mechanical and press work goes forward continuously day and night, in an effort to have the entire publication appear at an early date.

This campaign has been county-wide, and every single town and community of Rutherford county has responded with the maximum support. One of the most beautiful and appealing features of the edition will be the Chimney Rock-Lake Lure section of about sixteen pages, in which the attractiveness of Chimney Rock and the magnitude of the great Lake Lure development will be set forth in both word and picture. There is, perhaps, no institution in Rutherford county today that is doing more or even as much, in helping to broadcast Rutherford's name to the entire country and world as is Chimney Rock Mountains, Inc., and this major enterprise will receive first hand recognition in this edition.

The campaign, which has been executed primarily to give the proper constructive publicity to Rutherford county has been conducted under the auspices of The Rutherford County News, in co-operation with the Rutherford County Club, the Kiwanis Clubs of the county, the various county and town officials and the larger commercial and industrial enterprises of the county, and while it has taken time to compile such an edition and get it published, still it has been done thoroughly and it is expected that the edition will be a prized credit to the citizenship of the county and a valued asset to the county's every interest. The campaign has been in charge of the Herbert L. Knight organization. Mr. Knight, himself, being in active management of the entire campaign, every phase of which has gone forward in a most successful and satisfactory manner.
