Perfect Metal Work

In working up metals for cornices, ventilators, gutters, runners, and spoutings that are exposed to the elements, we use nothing but perfect material. In building up our work we are careful in making every joint perfect, and the same rule applies in our erection work. Therefore our work is as perfect as human skill can make it. Give us a trial.

KIWANIANS HOLD ANNUAL MEETING

Delegates From Zone One Spend Delightful Day at Chimney Rock.

Chimney Rock, Aug. 30.—Attended by more than 100 members of Kiwanis Clubs embraced in Zone 17 the annual mid-summer gathering proved highly enjoyable and successful from every standpoint when the club delegations spent Friday at Chimney Rock.

Inspirational talks from various delegates were heard following a meal served under the trees adjoining Lake Lure Tea Room with Mrs. Paul L. Holland as hostess. Music was supplied by the Lake Lure Orchestra of which Cecil Crouse is director.

Following the program the Kiwanians motored to various interesting points, many making an inspection trip to the big dam where Paul L. Holland, resident engineer, gave an interesting talk upon this type of dam construction which is unusual in eastern America. He said that the dam is now 90 per cent complete with only about 3,000 cubic yards of concrete remaining to be poured out of a total of 37,000 yards.

Officials Extend Welcome.

Members of the party took the trip to Chimney Rock proper and others inspected the new Lake Lure Inn which opens in October. Many expressions of surprise and pleasure were heard at the steady progress evidenced throughout the 8,400 acre development.

With Joseph B. Johnston, Kiwanis lieutenant-governor for Zone 1, serving as chairman, the program following luncheon proceeded at a lively pace. R. E. Price, district trustee, of Rutherfordton, expressed the welcome on behalf of the home club under the direction of which the meeting was sponsored. J. C. Herbsman, lecturer for Lake Lure, delivered a stirring address upon "Vision," emphasizing the tremendous part resort and recreational life in Western North Carolina is destined to play in the progress of the state and the south in coming years. B. L. Smith, superintendent of schools in Rutherfordton, and president of the Kiwanis Club there, also welcomed the guests.

Pretty Girls Sing.

One of the most enjoyable stunts of the day was given by the Forest City Club, which had present a bevy of attractive young women singers who took part with R. W. Minish in Kiwanis and popular musical numbers.

Clubs represented by spokesmen of other "stunts" included Newton, Rutherfordton, Forest City, Shelby, North Wilkesboro, Hickory, Statesville, and Hendersonville. J. W. Eucharan, director of personnel at the Lake Lure headquarters, voiced the general invitation to the visitors to inspect the company properties.

GEORGIA PRESS BOYS COMING TO LAKE LURE

Chimney Rock, Aug. 30.—Extensive preparations are being made to entertain the members of the Georgia Press Association, some 200 number, who are to visit the Lake Lure region September 27. President Lucius B. Morse is in charge of entertainment arrangements and will meet the party at Biltmore station and transport them out here and back. A luncheon will be given them at the Cliff Dwellers Restaurant high up on the side of the mountain. From this point the basin which will be inundated by the waters of Lake Lure now forming, can be clearly seen for its entire length, some five miles. The editors will arrive at Asheville on their special train, September 26 and be entertained at the Kenilworth Inn. Manager Roscoe Marvel expects to give them a banquet.

Higher prices for beef cattle are in prospect within the next 18 months, according to recent market reports.

A cow never loaf's while out in the sun. She stays on the move, grazing continuously which is another argument for clearing part of the woodland for pasture and leaving the remainder to grow trees.

To remove iron rust try boiling in a solution of one stalk of rhubarb to a cup of water.

A Youthful Tarzan

Jackie Strong, 8, of Gresham, Ore., lost four days and three nights in the Oregon mountain range, sustained himself with berries and fish, fighting always to find his way home, is today happy at home and unharmed. He became lost while on a fishing trip with his older brother. Searchers found track of a mountain lion which had been following him.

SCHOOL OPENS SEPTEMBER 6

Cool Springs Township Schools Give Promise of Best Terms Ever Held.

The Cool Springs Township schools will begin work Monday, September 6, at 8:30 a. m. The new pupils have been classified and the work should begin on scheduled time the first day.

The schools in the township have made only a few changes in the faculty from last year. This speaks well for the schools. The faculty is one of the best in the state.

The following is a list of teachers for the various schools in the Township:

Alexander Grammar Grade School.
Ola Wilkins, first grade.
Eugenia Champion, 1-A and 2-B grades.
Mrs. Wm. Harris, 3-B grade.
Lissie Hamrick, 4-B grade.
Nola Patrick, 5-B grade.
B. B. Hester, Principal, 6 and 7 grades.

Bostic Grammar Grade School.
Ada Bridges, first grade.
Nell Booker, 2nd and 3rd grades.
Velma Bridges 4th and 5th grades
— Walker, 6th and 7th grades.

Mt. Pleasant School.
Flora Matheny, 1st grade.
Dorothy McDaniel, 2nd and 3rd grades.
Glenn Harris, 4th and 5th grades.
F. A. Brown, 6th and 7th grades, Principal.

Pleasant Grove School.
Enza Smart, 1st, 2nd and 3rd grades.

Forest City Grammar Grade.
Ottillie Long, 1-B grade.
Clara Harrill 1-B grade.
Kate Long, 1-A grade.
Mrs. J. V. Ware, 2-B grade.
Mattie Hyder 2-B grade.
Mary Garrison, 2-A grade.
Mrs. Burl Moore, 3-B grade.
Margaret Bostic 3-B grade.
Mrs. Carl Huntley 3-A grade.
Mrs. Will Griffin 4-B grade.
Mrs. Fred Stallings 4-B grade.
Lucile Thornton, 4-A grade.
Mrs. Ruth Morris, 5-A grade.
Elna Bradford, 5-B grade.
Augusta Alexander, 6-B grade.
Julia Berry, 6-B grade.
Mrs. Minnie C. Flack 7th grade.
Mrs. Mae Wilkins 7th grade.
A. C. Finch, principal, English and Mathematics.

Cool Springs High School.
Sara Bailey, Winthrop College, Mathematics.
Lillie M. Bell, Alabama Womens College, Home Economics.
Katherine Brown, Meredith College, History and English.
— Crowder, Wake Forest College, Science.

Pfince Gaines, Georgetown College, Latin.

Katherine H. Goggins, Limestone, Boston, Paris, Music.

Gladys Harrison, Miss. State College for Woman, English.

Pauline Huggins, Bowling Green Business University, Commercial.

Juanita Minish, French.

W. T. Poole, University of S. C., History and Science.

D. H. Sutton, N. C. State College, Agriculture.

Mrs. O. C. Turner, Limestone College, History and Mathematics.
Charles Erwin, University of North Carolina, Mathematics.

SECTION OF HARD SURFACE NOW OPEN

No. 20 Highway Open For Travel From Beaver Dam to Rutherford County Line.

Motorists are rejoicing. A section of highway No. 20 west of Shelby, was opened for traffic Friday—traffic on a hard surface—thus eliminating much of the long detour between Shelby and Mooresboro, says The Cleveland Star. The laying of the hard surface from Mooresboro to Beaver Dam creek has been completed, and the concrete has seasoned sufficiently so traffic and motorists can try it out for the first time today. It has been open for some weeks from Mooresboro to the Rutherford county line for while the construction company has been pouring slowly between Shelby and Mooresboro, the traffic being detoured from Shelby via Dover and Ora mills and Lattimore to Mooresboro where the hard surface began. Mr. B. M. Graham, one of the highway engineers, says the hard surface has been poured from Mooresboro to a point east about 1,000 feet this side of Beaver Dam creek but this end of the road is green. The traffic can enter the new road surface after today at Mr. Bob Humphries at Beaver Dam creek, from which point the road is hard surfaced to a point a few miles west of Rutherfordton.

Mr. Graham says the construction company has about four and a half miles yet to finish. This unfinished stretch is between Shelby and Beaver Dam and it will require from two to two and a half months to finish the project. The work has been moving along slowly for the past few weeks because of rains but with favorable working weather the entire project should be finished and opened for traffic by the last of October.

Highway Commissioner Kissler expressed the opinion last winter that the project would be complete by July 1st, but for some reason the construction company which is executing the contract has only one surface crew at work and consequently the job has been delayed. A material supply station has been located at one of the mills west of Shelby to facilitate work on this end of the road project.

Milk producers of Buncombe county who sell their milk through the Farmers' Federation are getting \$4 per hundred pounds for 4 per cent milk while unorganized milk producers around Charlotte are receiving \$2.80 per hundred pounds. What's the answer?

B. B. Doggett Sells Fords.

Insurance That Covers Your Home—Protects Them, Too

Your home was built for you, your wife and children. If fire destroys it, and it is not insured, you may not be able to build again. You will lose your home—your children their inheritance.

This agency will assure you of a home after loss by fire if you insure your property in the Hartford Fire Insurance Company.

For over a century, the Hartford has been helping property owners to rebuild, after fire comes.
