BAPTIST CHURCH NOTES

Despite the inclemency of the weather last Sunday the attendance at the services were pretty good. Sunday school was off some.

Last week was observed as children's week and at the close of the Sunday school last Sunday some of the children under the direction of Mrs. Charles McCurry presented an interesting program.

Rev. R. C. Smith used for his subject at the morning hour, "Working Together With God." He read from the 5th chapter of Judges and his theme was founded on the 23rd verse of this chapter. Recently the church authorized the pastor to appoint a committee to be known as the Finance committee, who will plan and direct the finances of the church. Messrs. B. E. Gold, chairman of the board of deacons; P. C. Hawkins, church treasurer and John L. Scruggs, financial secretary were appointed.

Sunday evening at 6 o'clock, the Layman's League held a very interesting meeting in the Men's class room at the church. Mr. B. E. Gold, chairman, presided and each group was well represented. Several phases of the work was discussed. One thing worthy of mention was the decision to try to get all church members in the mid-week prayer meetings. The attendance is fine now and if many more come the services will have to be held in the main auditorium. It was decided that the League would meet each first and third Sunday evenings at 6 o'clock at the church for the purpose of formulating plans for work, make reports, etc.

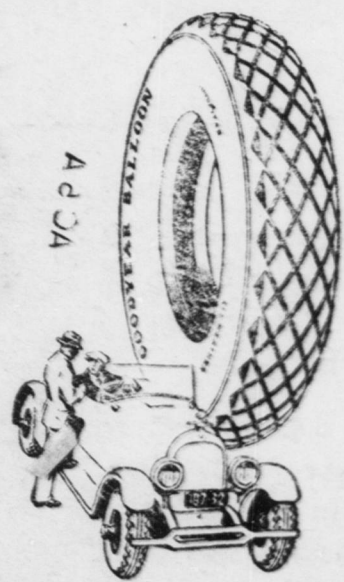

The subject for the evening hour was "What comes after the Millennium?" It was a continuation of the series the pastor has been preaching on Sunday evenings on "The Ages." There will be two more sermons, next Sunday evening and the Sunday evening following on this subject. The large attendance is gratifying and the public is cordially invited to all services.

The attendance at the teacher's meeting, on Thursday evenings is

growing. The first 15 or 20 minutes is devoted to subjects that concern the Sunday school as a whole. Last Thursday evening Mr. Carl Matheny made a fine talk on "How to make our Sunday school more evangelistic." The departmental meetings are very interesting and a plan has been worked out overcoming the difficulty which has been perplexing the teachers on account of several lessons being taught in the same department.

The Junior G. A.'s enjoyed a Halloween party at the Memorial building Monday night. There are several other parties of this kind scheduled for this week. The G. A.'s invited a number of friends and it was a large and merry party that gathered Monday night. The costumes were varied and all designs imaginable. Some were decidedly hideous, especially two who came in late wearing a papier-mache skeleton head and the other a grotesque devil's head. Of course the witch and all the hobgoblins were present and after much fun and inspection of costumes several games and contests appropriate for the occasion were enjoyed, followed by refreshments and a marshmallow toast.

CLIFFSIDE HI NEWS

Informal essays are the seniors' hobby now. We selected one of the best on "Life." Zeb Winn is the author.

Life.

"What is the use of life anyway? Men are criticized on all sides, going and coming. His life is very short and he has very little pleasure while in this world. He cannot please every body and so tries to please nobody. "Man comes into this world without his consent and goes out against his will. When he is little he is loved by the big girls and when he is big he is loved by the little girls. He has no one to love him when he needs it. If he does anything his neighbors think that he does wrong. If he is poor he has no friends, if he is rich he gets his money by telling lies. If he spends it he is a loafer. If he does not give it to church work he is called a "tight-wad." If he does, it is for show. If he lives to an old age he missed his calling, but if he dies when he is young, there was a lot of good things in store for him. So what is the use of life?"

Sophomores are dealing very severe with the high school pupils. In their history class they have a court. When any one breaks one of their rules they are tried on Friday which is the day when the court convenes. The court consists of Judge: Oras Biggerstaff, Lawyers: Paul Bridges, Rachel Hill, Catherine Hawkins and Edwin Hughes. Deputies: Chivous Luckado and Bertie Bridges. Sheriff: James Goode.

Just see what the seniors are doing! We have organized a Civic Club which meets every Friday. We have elected the following officers: Aileen Gold, president; Bessie Harrill, vice president; Dewey Thomas, secretary and treasurer; Ethel Kirby, Paul Nanney and Louise Lemmons, program committee.

From a report made by the director of the band of the school, the members are making a great deal of progress. There are now 20 members in the band. They rehearse every Tuesday and Thursday nights. As soon as the boys are competent to render a public concert the girls are going to organize another orchestra and then the two will combine.

CARD OF THANKS

We desire to express to our friends and neighbors our sincere appreciation of the many acts of kindness shown us during the recent illness and death of our baby boy. Also for the beautiful floral offerings. May God bless each of you.

Mr. and Mrs. E. L. Callahan.

USE NEGLECTED ASSET SAYS SOUTHERN FIELD

GRADUATES OF AGRICULTURAL SCHOOLS ACQUIRE FARMS.

Washington, D. C.—An issue of The Southern Field just published by the Development Service of Southern Railway System, is devoted to the agricultural and horticultural upbuilding of the South.

Its most important features are an editorial and an address by Mr. Roland Turner, General Agricultural Agent, Southern Railway System, directing attention to the opportunity to put graduates of Southern agricultural schools and colleges on farms. At present a very small proportion of these trained young men become dirt farmers for the simple reason that the great majority of them lack sufficient money to enable them to take over a farm and run it in the way that they have been taught farming ought to be done. It is suggested in the Field that organizations or individuals can do real constructive work in their communities by preparing groups of attractive farms and offering them to these splendidly-equipped young men on terms that will enable them to pay out and own unencumbered farms.

This issue also includes articles on Southern Horticultural Development, on Southern Apples, with special reference to marketing advantages and freight rates as compared with Western apples; on Opportunities for Growing Grapes in the South; on Profits from Sheep, with special reference to spring lambs; on Dairy Cows and Poultry; on Hauling the 1926 Peach Crop to Market; on Asparagus as a Profitable Crop; and on a remarkable transportation record made by Southern Railway in Handling Mules for the Spanish Government.
