CONSTANCE TALMADGE and ANTONIO MORENO in "VENUS OF VENICE"

America was too dry — so he came to Venice. He was studying Art—but the only thing he could draw was a check—six figures.

THRILLING SCENES FEATURE COMEDY

Constance Talmadge Has Colorful Role in "Venus of Venice"

Those fans who still harbor a sneaking suspicion that the life of a motion picture star is one of luxury and leisure, without particular responsibility or need of exertion, will find the final contradictions of the theory at the Movie Theatre, where Constance Talmadge's most recent comedy drama, "Venus of Venice" will open Saturday.

There is little opportunity for comfort or relaxation in Miss Talmadge's portrayal of the "Water Rat," a daredevil canal gypsy of Venice, for she is plunged from one exciting escapade into another until all possibilities of mischief seem to have been exhausted.

She dives from a bridge, landing unwittingly, in the passing gondola of a visiting American. She swims under water to sink another gondola and leave its burden of police floundering in the murky waters of the canal. She makes a thrilling dive from a balcony to escape an unwelcome suitor. She makes a spectacular "human fly" climb up the wall of a hotel. She leads the police a merry chase through a series of hotel rooms, discharging her wet, tattered garment as she goes and emerging, finally, dressed in the height of fashion in garments "borrowed" from guests.

Her portrayal of "Carlotta," judging from its reception, is the most entertaining of all her screen efforts. The characterization blends feminine charm, roguery, whimsicality, and other appealing qualities in such a manner that while the little "Water Rat's" main ambition is snatching purses, she can not help stealing hearts as well.
