Dreaded Aches, PAINS Disappeared

"My health had been poor for ten years, before I took Cardui," says Mrs. Anna Cronin, of Rockport, Ind. "I was lifeless and 'no account'. I dragged around day after day, every move an effort, and never feeling the joy of being well.

"At times, I had a dreadful ache across my back, and my sides hurt me. I worried along, sometimes hardly able to leave my bed, but the demands of a growing family had to be attended to; so I would get up, do what was absolutely necessary, and then lie down again.

"One day, someone suggested Cardui to me. I took it for several months, and all the time I was growing stronger, and less nervous. My aches and pains finally disappeared.

"That was two years ago. My improvement has been permanent. The good health, which followed the taking of Cardui, is still with me, so I do not hesitate to recommend it to my friends."

A Distinctive Feature

of this youth is his far sightedness; he was thanking a patent medicine Dr. for the wonderful results obtained from the use of his medicine; when asked how many bottles he had taken, replied: I didn't take any of it; my uncle took one bottle and I'm his sole heir." A distinctive feature about our grocery service is that super quality that appeals to even the most critical housewife. Our variety of choice groceries is unlimited.

COMPULSORY SCHOOL LAW WILL BE ENFORCED

R. E. Price, School Attendance Officer, Calls Attention to Law and Its Requirements

"The Compulsory School law will be enforced in Rutherford County, as far as I am able, with the help of the teachers, committeemen and friends of education", says R. E. Price, School Attendance officer of the county. The law is reasonable. If a child is sick and unable to attend school, it is the duty of the parents to notify the teachers. If parents must have a child, or their children, to work a day or two they must first get permission from their teacher or principal. The law requires teachers to report all unexcused, unlawful absences.

All mill superintendents and other public spirited citizens of the county are asked to help co-operate to enforce the compulsory school law. Report all children that you know are well and between the ages of seven to fourteen years that are not in school to their teacher, or principal. This is a fight against ignorance, one of the greatest curses to mankind.

No child, under sixteen years of age, who has not completed the fourth grade, or more in school, cannot work more than eight hours per day in any mill or factory in North Carolina.

When parents keep their children out of school, within the compulsory age, without a lawful and reasonable excuse, they violate the criminal law of North Carolina. This is a serious thing to do.

Following is the State Compulsory school law in brief:

Chapter 100, Acts of 1919

Section 1. Every parent, guardian, or other person in the State of North Carolina having charge or control of a child between the ages of SEVEN and FOURTEEN years shall cause such child to attend school continuously for a period equal to the time which the public school in the district in which the child resides shall be in session. The principal, superintendent, or teacher who is in charge of such school shall have the right to excuse the child from temporary attendance, on account of sickness or distance of residence from the school or other unavoidable cause which does not constitute truancy as defined by the State Board of Education.

Section 2. Any parent, guardian, or other person referred to in section one of this act, violating the provisions of the aforesaid section, shall be guilty of a misdemeanor, and upon conviction shall be liable to a fine of not less than five dollars (\$5), nor more than twenty-five dollars (\$25), and upon failure or refusal to pay such fine, the said parent, guardian, or other person shall be imprisoned not exceeding thirty days in the county jail.

Section 3. The county superintendent of public welfare or chief school attendance officer or truant officer provided for by law shall investigate and prosecute all violations of the provisions of section one of this act.

SHELBY STAR MAY LAND BIG HONOR

Shelby, Nov. 7.—Laymon Beam, Shelby high's star back and an All-State pick, has some chance of being named on the All-Southern high eleven this year, judging by queries coming in for the speedy's boy's record.

When Shelby defeated Kings Mountain in the state race here Friday Beam made two of the touchdowns on line plunges and ran his total of five games to seven touchdowns, or 42 points. The 150-pound youngster played in the line two years before going in the backfield and the result is that he is better than the usual back on defensive play. Beam passes, snags passes and hits the line, but his specialty is in the broken field act.

Never tell a man that his boy looks like his mother if he owes you money.
