### Basketball

The season of the Golden Tornado basketball team opens with the game at Lattimore, Friday night, December 9. The regular team has not yet been selected but there are twenty-five boys out for practice. Some of the original Tornado are back. Thomas Blanton is captain of the team. We are expecting to have an extra good season. The entire schedule will be announced later.

### Chapel

Mrs. Turner's room had charge of the chapel exercises Wednesday afternoon, November 30. Sarah Moss played a beautiful piano solo. Next, Dorothy Green gave a reading. We all liked Mary Carry, the "harum-scarum," heroine of Dorothy's recitation. The High school male quartet rendered two songs, "Highway Home" and "Love Song." The ones on the program all did remarkably well. We would like to see more of the chapel programs conducted by the students.

### Mrs. Sutton Talks to Writers' Club

On Thursday afternoon the members of the Writers' Club were favored with a talk by Mrs. Sutton. As usual this talk proved to be a real treat. Mrs. Sutton, experienced in the art of writing feature articles, talked to us on that line. To illustrate her speech she read selections from one of her own well known features, "The Westminster Abbey of the South." The members of the club thoroughly enjoyed her talk.

The various musical organizations of C. S. H. S. add a great deal to the pleasure of chapel and public entertainments. When clubs were begun in the fall, seventy-five students joined the glee club. This group is doing some very fine work in chorus singing. Miss Mary Wilder, the director, selected fifteen of the best voices from this group and does special work with them on Monday afternoons. There are seven members of the orchestra.

One of the most popular organizations, both with the school and public, is the male quartet, made up of Fred Blanton, Toy Summers, Bur-

### SAFE AND SOUND FARMING.

A Mississippi banker, seeing his community facing ruin with a one-crop system, sought to remedy matters. Here is what he did:

"We started a movement, and we secured the best county agent we could find, we solicited the advice of agricultural experts; we put before them our conditions and asked them to suggest a solution and a plan to be adopted that would prevent any such catastrophe in the future. After studying the situation from every angle we adopted the following program for safe and sound farming:

- "Poultry on every farm,
- "Brood sows on every farm,
- "From three to ten dairy cows on every farm,
- "Home garden on every farm,
- "Crib full of corn,
- "Barns full of hay,
- "Smokehouses full of meat, lard and sorghum,
- "Potato houses full of potatoes.
- "And more and better cotton on less acres."

What more could be said? Clip out this list of nine things to be done on the farm and DO THEM. You will then be independent and happy.
