Hats that are decidedly rich in inspiration, subtly reflecting the mode for soft femininty, in the graceful swing of the brim-that is always in complete harmony with the smartly modeled crown. Youthful models of felt and velour, with drooping or up-turned brims, with modern geometric tucks, slashes and creases, and with the smart snug fitting line at the back. Some are combined with velvet-a distinctly new note. Simply tailored and beautifully made. In all the new colors.
