

The Time to Correct Suffering is Now!

Charlotte, N. C.—"I got so all run down that it was an effort for me to get around. I had a weak back and severe pains thru my sides. I was not much good for anything. Thru the advice of a friend I took Dr. Pierce's Favorite Prescription and it relieved me of all my feminine trouble, strengthened my nerves and I grew well and strong. Have never had any return of the trouble. 'Favorite Prescription' is surely a grand medicine for women to take."—Mrs. Julia Davis, 511 W. Trade St.

After Winter's Colds

It Is Wise to Check Up on the Kidneys.

WATCH your kidneys after colds and grip! When the kidneys slow up, impurities remain in the blood and are apt to make one tired and achy with headaches, dizziness and often nagging backache. A common warning is scanty or burning secretions.

Doan's Pills, a stimulant diuretic, increase the secretion of the kidneys and aid in the elimination of waste impurities. Are endorsed by users everywhere. Ask your neighbor!

Hunting Trouble

An acquaintance of ours from Ellenboro was arrested for driving 70 miles an hour, and in answer to the Judge's question as to the reason for such speed exclaimed: "My wife had decided to go back to her folks and I wanted to get her there before she changed her mind." We've not changed our mind one bit about ours being the best place to buy your groceries. Continual commendation from critical housewives convinces us the popularity of our groceries must be deserved.

THE AGRICULTURAL CLASS HAS VARIETY OF FARM PROJECTS

Cool Springs Students Make Huge Profit on Farm Projects

Thirty boys in the vocational agriculture class at Cool Springs High School made a profit of \$5838.28 on their home projects last year. This is an average of \$194.61 per pupil. The figures compiled from the project report of the Agriculture Department for 1927 are interesting. They show that these boys completed 77 projects. The entire proceeds of these projects were \$10,522.45. The expenses were \$4684.17. The boys worked 11,508 hours on their projects and they take much pride in them.

These farm enterprises were widely diversified. Nearly every crop which can be grown in this section was represented in them. The boys produced 34 bales of cotton, 1086 bushels of corn, 9811 pounds of dressed pork, 737 bushels of sweet potatoes, 28,000 sweet potato slips, 45 bushels of Irish potatoes, 121 bushels of oats, 143 bushels of wheat, 2988 dozen eggs, 1390 chickens and 886 pounds of capons. In addition to these, there were two vegetable gardens which produced \$225, and an 8 acre orchard planted.

The income from the different projects varied as much as the crops. The boys prefer to think of their profits in terms of labor income. They find that poultry paid them an average of 80 cents an hour for the time spent on it. Cotton averaged 44.5 cents an hour, hogs 69.4 cents, corn 32.7 cents, sweet potatoes 68.8 cents, sweet potato slips 98 cents, Irish potatoes 74.6 cents, oats 27 cents, and wheat 28 cents. Of the four major types of projects, cotton, corn, hogs and poultry, the latter was most profitable. Hogs came next and the relative profits on corn and hogs proved to the boys that one good way to realize a profit on corn is to feed it to hogs. The excellent profit yielded by sweet potatoes and the fine storage facilities afforded by Forest City's storage house, will make sweet potatoes a popular crop with the boys.

"What is the most important thing that you have learned from the project report?" one of the best students in the class was asked.

"That the best farmer is the one who diversifies his crops," was the quick answer. "There is good money in cotton," he went on, "It will always be a good crop here, but the man who has a flock of pure bred chickens, cared for right, is sure of a steady income. Raise corn to feed hogs, thus double its selling price. Grow some sweet potatoes and truck. Have some cows and a vegetable garden. There is money in this kind of farming."

It is a very fine thing for a school to have in it thirty boys who have carried out 77 business enterprises of the scope of these. Accurate training in the business of farming will do much to put agriculture on a paying basis.

Rev. Dr. R. T. Baker officiated. Interment was made in the cemetery near the church. HAPPY RIDGE DEMOCRATS OPPOSE GOV. AL SMITH

Believe Dose of Old Time Religion Would Be Good for Montgomery Advertiser

Mr. Editor: Will you give a little space for a few words from Happy Ridge?

We are all very silent Dem's. and are not making any fuss about our next president.

But it seems like some of the New York people and one fellow way down in Alabama, who is in the newspaper business, would have us believe that Gov. Al Smith, of New York, is the happy choice—with plenty booze for everybody, and the Lord knows what else.

We wonder if that Alabama boy don't stay in the woods a good part of his time dodging prob. officers of this good old Southland of ours.

I wonder if the fellow from Alabama, who is captain of the paper with Al Smith on the first page could attend a good old fashioned holiness meeting for about two weeks, he may be able to find that he can see out of both of his eyes.

And be able to see something besides the Tammanyite, and the Wall Street liquor zang. Anyway, old time religion would do him good.

We guess Mr. Smith is o. k. for Governor of New York, but we think the Montgomery Advertiser ought to stick to its own buddy, Mr. Heflin. We think the Advertiser ought to put on its front page from now till July 4th, "For President, Senator J. Thomas Heflin," or keep quiet.

BENJ. W. HUTCHINS.

Times change and a modern poet would probably say that a taxi by the sidewalk's rim a yellow taxi was to him, and it was nothing more.

When Gene Tunney turned in that 89 golfing at Miami the Dempsey adherents immediately claimed that the scorekeeper didn't pick up the count until after the first fourteen holes.
