

**NEW STORE MANAGER AT HENRIETTA**

Caroleen, Feb. 6.—Mr. Frank B. Edwards, native of South Carolina is the new manager of the Henrietta Mills stores to succeed Mr. W. S. Moss, who resigned. Mr. Edwards assumed active charge January 24 and will move his family to Caroleen soon. He has had many years of successful experience in the mercantile business. He has been with the Martel chain of mills, who now own the Henrietta Mills, for several years. Mr. Edwards has already endeared himself to the people of Caroleen and Henrietta and says he likes Ruth-erford county.

We feel that the two big stores of the Henrietta Mills will continue to be under able management, as they were under Mr. Moss and his predecessors.

**CLASS BASKETBALL**

"Babe" Sietz's freshmen defeated the Juniors Thursday in a close and exciting game.

The Freshmen took the lead in the first few minutes and they were two points ahead at the end of the first quarter. The score was 12 to 10.

In the second quarter the Freshmen scored 13 points to 12 while the Juniors took the lead in the third quarter by scoring 6 points to 2 for the Freshmen. The Juniors were leading, 28 to 27 in favor of the Juniors.

In the final quarter the Freshmen held the Juniors to two points while they piled up seven to defeat the Juniors 34 to 30.

Jake Thomas led the scoring for the Freshmen with 15 points. Albert and Fred Blanton led the scoring for the Juniors with nine points apiece.

George Markovy of Hammond, Ind., charged his mother in law with throwing hot water on him and had her arrested.

**USE SOYBEAN VARIETY SUITED TO SECTION**

Raleigh, Feb. 6.—There is a variety of soybean suited to most any section of North Carolina. Some of the beans are best for seed, others are best for hay and the wise farmer will plant the kind that fulfills the need on his place.

In the opinion of C. B. Williams, head of the department of agronomy at State College, four to six varieties should fill all requirements in any one locality. Very few soybeans are now produced for oil. Their main use is for seed, for hay and for soil improvement purposes. Soybean hay is one of the finest legume hays that can be produced in the State and ranks about equal with alfalfa as a feed for dairy cows. The man who wants to produce such hay will not wish to plant a variety that produces much seed and but a small quantity of coarse hay. Some of these things must be considered in planting the soybean crop this spring, states Mr. Williams.

In the Piedmont section, the Laredo, Herman and Virginia are good beans for seed; the Laredo, Virginia and Herman for hay; the Herman, Mammoth Yellow and Tokyo for grazing hogs and the Laredo, Herman and Virginia for planting in corn and for soil improvement.

Just as he stopped to tie a loose shoestring, a bullet from an unknown source passed over Patrick Doyle of New York. Had he been standing erect it would have hit him.

**MY NEIGHBOR**

By Mrs. C. M. Harrill, Henrietta.

Dear neighbor friend, kind and true I wish I could be as good as you, I would like to return every deed so kind, And do it with a heart sublime.

I would like to live the life you live, And be willing to give the gifts you give,

Loving your neighbor like a brother Without greed or malice toward another.

I would like to wear your friendly smile,

And think of others for just awhile, Then I could be a friend you would like to meet,

And this life would be happy and sweet.

If I could be the neighbor I would like to be,

I think no other could be as happy as me,

Then I would return all of the nice things to you,

If I could be a friend, like you good and true.

I would like to be the friend that could meet you half way, And always greet you with a friendly "good day,"

Then I would be happy forever and ever,

And keep being neighborly and trying to be clever.

**FILTHY TEXT BOOKS**

A recent letter described as "scandalous" the text books being used in the State supported girls college in Florida.

We secured a copy of the pamphlet exposing the literature being taught those in college and found the situation far worse than we had anticipated.

L. A. Tatum and A. Pickard, two public spirited citizens of Tallahassee, Florida, have rendered a service not only to their State but to the people of the country in compiling in pamphlet form, extracts from the text books on 'Psychoanalysis' as taught to the girls of Florida.

From the standpoint of vulgarity, evil-mindedness or filthiness, we have never seen the equal of the extracts quoted.

A number of times in our life we have left Pullman smokers in order to avoid listening to dirty stories, but Pullman smokers are innocent Sunday school stories when compared to the vile, filthy statements quoted in the pamphlet. We have never seen anything like them anywhere.

Among the vilest of the books being studied by Florida was a translation by Harry W. Chase, president of the University of North Carolina, while the author of another was named as F. H. Allport, assistant professor of psychology at the University of North Carolina.

We are tempted to quote a few extracts from the books of Dr. Chase and Prof. Allport to show what they contain, but the matter is so obscene and so intensely vulgar that we prefer not to inflict it upon our readers, in fact, it might prevent this issue passing through the mails.—Textile Bulletin.
