## USES FIVE MILLION GALLONS OF WATER ANNUALLY

Rutherfordton, Feb. 13.—The steady growth in industry and population of Rutherfordton and the adjacent territory is reflected in the figures for use of water and power from the municipal water and electric power plant during the past few years, as announced this week by J. R. Anderson, superintendent.

The capacity of the plant in 18,000 gallons of water an hour, now. For 1922 there were 2,134,350 gallons of water pumped. For 1927, the consumption rose to 5,430,000 gallons.

Similar rise was noticed in the use of electricity. In 1922 the revenue was \$14,150. In 1923 it had risen to \$20,195; in 1924, \$26,700; 1925, \$33,000; 1926, \$36,319.75, and the figure for 1927 probably will show another gain, Mr. Anderson said. In 1926 there were 500 users of electric current from the plant. Now there are 700.

## Nurse Advises WEAK, RUN-DOWN WOMEN To Take Cardui

"I have known of Cardui for nearly twenty-five years," says Mrs. Selma Meissner, 1072 Harrison Ave., Beaumont, Texas. "During that time, I have taken it several times and have frequently recommended it to others, for it is a splendid medicine and I am glad to give people the benefit of my experience."

"I have been a nurse for several years and have often come in contact with patients who were run-down and weak. Often I have told sufferers of Cardui, and the way I, myself, had been helped after taking it, and advised them to give it a trial. Many of them have since thanked me for what I told them, so I am willing that other women should know about it, too."

"I first took Cardui because I was awfully run-down. I had no appetite, and was weak and listless. It was hard to keep going under such conditions, and I looked for something which would help me."

"I had read of Cardui and decided to try it. After taking it, I improved so much that I have taken it since whenever I needed a tonic."

Sold by all druggists.
