Motorists are learning that there is a big difference in tires, although they look pretty much alike. Some are long on looks and short on quality and mileage. But you won't need a microscope to be sure that the Goodyear tire you get from us is a real buy. Goodyear mileage tells the story.

Today, more than ever, more people, the world over, ride on Goodyear tires than any other kind.

And You Get This Kind of Service FREE

We don't just sell you a tire—we'll apply it promptly, see that your rims are free from rust, and that the tire is correctly inflated. Then after it is on and running we will inspect it at any time and apply conservation measures to help you get all the miles of service that the factory has built into it. This kind of service means the dollars saved. We do it free for our customers.
