

Feel Good

Most ailments start from poor elimination (constipation or semi-constipation). Intestinal poisons sap vitality, undermine health and make life miserable. Tonight try **DR. MILES' NATURE'S REMEDY**—all-vegetable corrective—not an ordinary laxative. See how it will aid in restoring your appetite and rid you of that heavy, lousy, peevish feeling. Mild, safe, purely vegetable—25c

Feel Tired and Achy?

Too Often This Warns of Sluggish Kidneys.

LAME? Stiff? Achy? Sure your kidneys are working right? Sluggish kidneys allow waste poisons to accumulate and make one languid, tired and achy, with often dull headaches, dizziness and nagging backache. A common warning is too frequent, scanty or burning excretions. Doan's Pills, a stimulant diuretic, increase the secretion of the kidneys and thus aid in the elimination of bodily waste. Users everywhere endorse Doan's. Ask your neighbor!

Just Tottering, So Weak

"I was in a bad state of health and was going through a critical time of my life," says Mrs. Ella Scarborough, R. F. D. 5, Dothan, Ala. "Several different things were recommended to me, but I did not get any real relief until I began to take Cardui.

"I was just as weak as could be. My legs were shaky, and often I would just totter around the house. I finally got so bad that I was in bed several weeks.

"It was then that I began to take Cardui. I kept it up for quite a while, and at last I regained my health. Cardui was certainly a friend to me in time of need.

"My health is splendid now, and I seldom have to use medicine, but I gladly say a word about Cardui whenever I find a friend going through the same suffering which I endured."

RUTHERFORD HAS THREE WINNERS IN STATE CONTEST

Mrs. P. D. Carpenter, Mrs. C. F. Cline and Mrs. Grant Allen Get Prizes for Best Gardens.

Raleigh, N. C., April 30.—Winners in the year 'round state garden contest for the season of 1927-28 have been decided upon by the horticultural and home demonstration workers of the State College of Agriculture under whose supervision this contest was conducted.

There were 2,037 individuals in 20 different counties entering the contest last spring. Each of the five districts under which extension work is administered was represented and the sum of \$350 in cash was awarded to the prize winners of the different districts. Under the plans of the contest as announced last year, a county prize of \$25 was offered for the county making the best record in a district. This prize was awarded to the county council of farm women sponsoring the movement under the direction of the home agent. Three prizes of \$20, \$15 and \$10 were also offered to individuals in each of the five districts. The money used in awarding these prizes was donated to the Extension Service by the Educational Bureau of the Chilean Nitrate of Soda.

According to E. B. Morrow, extension horticulturist, Rutherford county won the prize for the mountain district with Mrs. P. D. Carpenter of Route 3, Forest City, Mrs. C. F. Cline of Gilkey, and Mrs. Grant Allen of Union Mills, winning the three prizes for individuals. In the Piedmont district, Forsyth county won the district prize with Mrs. P. C. Henry of Conover, Mrs. W. P. Sigmon of Hickory and Mrs. Tom Williams of Granite Falls winning first, second and third prizes as individuals. In the Central district, Rockingham county won the county prize, Mrs. F. C. Lantern, of Stoneville; Mrs. J. M. Gibbs, of Reidsville, and Mrs. B. F. Atkins, of Stoneville, winning the three individual prizes. In the Northeastern District, Northampton county won the county prize with Mrs. A. A. More of Washington; Mrs. Rosa Briley of Greenville, and Mrs. Clarence Vincent of Winterville, winning the three individual prizes. In the Southeastern District, Cumberland county won the county prize with Mrs. Henry Middleton, of Warsaw, Mrs. C. S. Bell of Currie and Mrs. Ernest F. Scott of St. Paul winning the three individual prizes.

KILL POTATO BUGS WITH CALCIUM ARSENATE

Raleigh, N. C., April 30.—Calcium arsenate, familiarly known in North Carolina as an efficient poison for the control of the cotton boll weevil, is also one of the best poisons for the common potato bug or Colorado Potato beetle.

"Calcium arsenate is the cheapest poison that potato growers can use at the present time for the control of the Colorado Potato beetle," says C. H. Brannon, extension entomologist at State College. "Those who grow potatoes know that this insect can completely destroy the plants in a short while if no control measure is used. Calcium arsenate may be used either as a dust or as a spray and is absolutely effective if applied."

In using the material as a dust, Mr. Brannon advises that the potato plants be covered well. The amount to use will depend on the size of the plants and the material may be applied satisfactorily if the regular cotton dusters are used. There is little danger of burning the foliage but too much poison should not be used for the sake of economy. Recent tests show that good control is secured by this method of poisoning. However, it should be kept in mind that the arsenate is not a control for plant diseases but for insects alone.

If desired, a spray may be made by using two pounds of the calcium arsenate to 50 gallons of water. For the growers with only a small acreage, a spray may be prepared by using 10 tablespoonsful to three gallons of water.

In any event, the applications of either dust or spray should be started as soon as the beetles appear in numbers and should be continued just as often as the beetles become numerous.

The prospects for a bumper crop of red clover in Piedmont North Carolina is the best in years.

BASEBALL

Eliminate Lowell

Forest City won their first game of state championship by eliminating Lowell High in a one sided game, 20 to 4, Thursday on the local ground. "Tim" McKeithan, local ace, allowed the visitors only four hits and sent an even dozen of them back by the strike-out route.

Bently, who started on the mound for Lowell, was hit hard in the three innings that he twirled, allowing twelve hits and sixteen runs. Hawkins, Lowell first baseman, relieved Bentley in the fourth inning and allowed seven hits and four runs in the final five innings.

D. McKeithan, Blanton and Laughridge, of Forest City, hit for the circuit while Draton, Lowell's center fielder, hit one that bounced over the left field fence in the first inning.

D. McKeithan led the hitting for the locals with five hits out of six times up while Hawkins, led on the offensive for Lowell with two hits out of four trips to the plate.

This was Forest City's fourteenth victory of the season.

Box score:

Lowell	AB	R	H	E
Leonard, ss	5	0	1	1
Holmes, 2b	2	1	0	2
Hawkins, 1b-p	4	2	2	0
Deaton, cf	4	1	1	0
Hand, lf	3	0	0	1
Bentley, p-1b	3	0	0	0
Price, c	4	0	0	0
Reeves, 3b	3	0	0	1
Leonhardt, rf	4	0	0	0
Totals	32	4	4	5

Forest City	AB	R	H	E
Biggerstaff, 2b	4	2	2	0
Blanton, 3b	6	3	4	1
D. McKeithan, ss	6	3	5	1
T. McKeithan, p	4	2	1	0
Keeter, 1b	6	2	2	0
Watkins, c	2	3	1	0
Moss, c	1	0	0	0
Laughridge, cf	4	3	3	0
Likens, rf	6	0	1	1
Whitlock, lf	3	1	0	0
Horton, lf	0	1	0	0
Totals	42	20	19	3

Summary: Home runs: Blanton, D. McKeithan, Laughridge, Deaton; two base hits: Biggerstaff (2), Keeter, Laughridge (2); sacrifice hits: Moss; base on balls: Off Bentley (5), off Hawkins (3), off T. McKeithan (5); struck out: By Bentley, none; by Hawkins, (1), by McKeithan 12; hits off Bentley, 12 in three innings, off Hawkins, 7 in five innings. Umpire Frye.

START COTTON RIGHT ADVISES FARM WORKER

Raleigh, N. C., April 30.—The frequent, cold rains of recent weeks have caused cotton planting to be delayed and it is doubly important now that the crop be started so that it will grow off quickly and vigorously.

"The most important cultivation is that one given just before the plants come through the soil or as soon afterwards as they are thoroughly out and straightened up," says C. R. Hudson of the farm demonstration division at State College. "Cultivation with a weeder or light harrow will destroy young weeds and grass that will later have to be chopped out with the more expensive hoeing. Get over the field with this weeder or harrow while the land is in best condition after a rain. One man with a mule can cover from 10 to 12 acres a day with these machines."

Chop the plants when they have put on four to six leaves, advises Mr. Hudson. In this way, wood limbs will be suppressed and fruit limbs will grow. Thicker spacing on the row will also help in better yields. Two stalks to the hill, eight inches apart is not too thick, according to the experiments.

It will also pay to fertilize well this year, states Mr. Hudson. Under boll weevil conditions, side applications of nitrogen fertilizers must be made early. If the boll weevil is to be kept under control, later applications of nitrate of soda may probably pay but under usual conditions it is best to make this application right after chopping and before the next cultivation. Since planting has been delayed, the use of side applications of quickly available nitrogen fertilizers, such as nitrate of soda, will probably pay better than usual. Applications of at least 100 pounds to the acre should be used.

Mr. Hudson believes that the profits to be secured from the cotton crop this year will depend largely on the manner in which the crop is started. Running the weeder or harrow, chopping at the right time and applying a liberal side application early in the season are three very important items.

STATE LINE ROAD BEING IMPROVED

Chesnee-Cliffside Road Under Construction, and Forest City-Cliffside Road Being Improved.

The following appeared in the Gaffney Ledger last week:

"Five miles of highway No. 10 in Cherokee county, from Chesnee to the Cliffside highway at State Line church, will be surface treated this summer, according to a decision reached by the State Highway Commission meet in Columbia this week. The hard surfacing of five miles of the Chesnee highway from Gaffney, now under way, is expected to be completed by early summer. These two projects will leave a dis-

tance of only eight or nine miles unsurfaced between Gaffney and Cliffside.

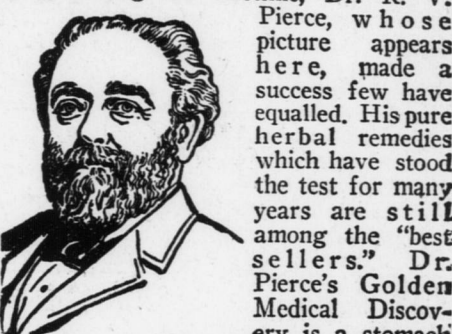

"The Spartanburg Herald yesterday reported the matter as follows: "Surface treatment of state highway No. 10 from Chesnee to the Cliffside highway at the North Carolina line was approved by the State Highway commission in session yesterday, according to Charles O. Hearon, commissioner of this district.

"Work on the five-mile stretch should be completed during the summer, Mr. Hearon said. Completion will provide a through route to the Cliffside-Rutherfordton highway and will shorten the distance several miles. Traffic to North Carolina has been directed via Cliffside."

The highway from Forest City to the South Carolina line, via Caroleen, Henrietta and Cliffside is being improved. Traffic is being detoured over the old road from Forest City to Caroleen. This work will be completed soon.

Why He Succeeded

Honored politically and professionally, during his lifetime, Dr. R. V. Pierce, whose picture appears here, made a success few have equalled. His pure herbal remedies which have stood the test for many years are still among the "best sellers." Dr. Pierce's Golden Medical Discovery is a stomachic alterative which makes the blood richer. It clears the skin, beautifies it, pimples and eruptions vanish quickly. This Discovery of Dr. Pierce's puts you in fine condition. All dealers have it in liquid or tablets.

Send 10 cents for trial pkg. of tablets to Dr. Pierce, Buffalo, N. Y., and write for free advice.

The loco weed grows down Texas way, and it may be a pretty good idea to keep a close watch on the democratic donkey next June.

"As Good As Goodyear"

To our notion it can't be, but how much do you think this statement has cost the tire buying public? We say plenty.

Perhaps you have used Goodyears or possibly your car, when new, was equipped with Goodyears. When new tires were needed, you took a chance on the "just as good" kind.

We are continually impressed with this loss, because, nearly every day one or more customers tell us of their experience with tires claimed to be as good as Goodyear.

How often do you hear—Goodyear is a good tire—but—? The price may be lower or higher. Even with the local anaesthetic of special sale, discount or long trades, the mileage cost is usually high, compared with Goodyear.

UNIFORM VALUES

Goodyear tires are the standard of tire values. They are not high priced and offer a selection of types in all sizes to meet every requirement of the motorist.

The lowest priced Goodyear may give mileage equal to or greater than many tires priced higher.

We have been in the tire business a long time. We have read many "Amazing" offers, but the one sure-fire, dependable, high-quality, low-cost tire bargain on the market today is a Goodyear tire.

SCIENTIFIC TIRE SERVICE

The Clear Vision Repair Shop, where repairs are made as they are at the factory.

Careful and scientific application and care of tires. Service Cars to handle your tire trouble at home or on the street.

Our place is at the service of the Public for repairs or street service regardless of the tires used.
