HOLLY SPRINGS NEWS

Harris, R-1, July 30.—A successful revival came to a close Sunday, July 29th at the Holly Springs Baptist church. The church was greatly helped and built up, though there wasn't much visible results.

Rev. Roscoe Smith, pastor of the Cliffside Baptist church and a returned missionary from Japan did the preaching. We have had great preachers at our church but it was believed by many that Rev. Smith is one of the greatest preachers and teachers that has ever come our way. An humbler spirit is hard to find. He is a very lovable man and leaves a host of people to wish him God speed as he goes on his way.

Mr. J. Rector Robbins, of Harris, one of our own boys who has recently graduated from the Baptist Bible Institute in New Orleans, La., had charge of the music. The singing was good and enjoyed by all.

Large crowds attended the services notwithstanding the fact that meetings were in progress all around us. We had visitors from all the nearby churches.

The revival is going on at our sister church, Sulphur Springs, this week and J. R. Robbins also has charge of the music there.

NEW ORLEANS GIRLS BRAVE FIRE DANGERS

While firemen ran hose lines over their heads to third floor windows, whence they played steady streams of water and chemicals on an adjoining building, sixteen telephone operators of the Southern Bell Telephone Company remained on duty at the New Orleans main exchange at an early morning hour recently. Smoke poured through the open windows and flames found their way into the telephone operating room from the burning structure, but not a girl left her post.

Glorious performance

Precision built in this Great Hudson

The great performance that marks Hudson out among all fine cars, with stellar brilliancy, is not alone in the genius of its design, but in a manufacturing execution that also stands at the head of the industry.

The hand-matching of all pistons is a detail in this precision manufacture, that is typical of every operation in building this greatest of all Hudsons.

Hudson leadership of mode extends to every detail and marks a new Hudson supremacy, as definite as its mechanical dominance through the Super-Six principle, and its companion invention which set today's standard for motor performance.

Every item of finish, construction and equipment expresses value as tangibly as its great chassis qualities. Come and examine the new Super-Sixes. They will give you an entirely fresh view of motor values.
