There are times when it seems that "news" is as scarce as "hens teeth" and this is one of the times. No one seems to know, or have even heard of anything out of the ordinary. Well, we have one consolation, at least; if we do not have anything to write about we simply do not have to write, so that's that. We do appreciate the few notes that have been contributed.

BAPTIST CHURCH NEWS

There were 380 in Sunday School last Sunday and we were delighted to see every one that was present, but we would like it much better if on next Sunday there would be 400 or more. What about it folks? The people are here if we only go after them in the right way.

Mr. P. C. Hawkins, church treasurer made his financial report to the church last Sunday morning and it sounded pretty good, but if all the members during the past year had done their best what a glowing report it would have been.

The pastor announced that he would leave Monday to hold a meeting at Great Falls, S. C., and Mr. J. C. Hames would have charge of the prayer meeting on Wednesday night of this week and also next week. He will arrange the programs and secure those needed to help him.

Rev. Smith also announced that although we had a chautauqua here last week another one was coming. A Bible chautauqua, to be at the church next Sunday morning and evening and the Sunday following at the usual hours for service. Dr. E. B. Dillard, Bible student and lecturer is to deliver four Bible lectures here. Two next Sunday and two the following Sunday. He will also teach the Young Men's Berean class these two Sundays. The public is cordially invited to attend these services.

The pastor asked his hearers to read the 15th chapter of John when they went home. His text was the 5th verse of this chapter. He used an object lesson demonstrating how branches of one kind of tree, or plant may be grafted into the body of another specie.

At the evening hour the text was the latter part of the 23rd verse of Hebrews 10. "For He is faithful that promised." One of the largest Sunday night audiences in many months was present and the message was delivered with an earnestness that gripped the audience.

SHILOH NEWS

Rutherfordton, R-1, Sept. 10.—J. A. Smith has been sick the last two weeks. Her many friends hope she will soon be well again.

Spindale, spent Sunday at Mr. M. M. Spurlin's.

Miss Bernice Bradley returned home last week after spending a month in Inman, S. C.

and Miss Amanda Haynes and Mr. C. B. Edwards.

We stated above that news seemed rather scarce and after we had jotted down the few items we had we went out to make a last search for more and ran into a regular walking encyclopedia composed of well several persons. A great deal of the news concerned some of those in the crowd and as soon as it was stated we were warned that we would be standing before recorder's court, or some other kind of a court while some declared they would take justice into their own hands and so we are in a very precarious position and as we would sooner go hang than offend some of them we will play safe.

ESSEX Super

See this special ESSEX chassis display

and the costly car way it is built

The most important part of your car—is the part you never see! But now we are especially displaying an Essex chassis to show the costly, fine-quality way it is built. If you could place it — first, beside a \$3,000 make of chassis—and then beside a chassis in the Essex price range—you would have dramatic, visual proof of the fine-car Essex construction, as distinguished from the practice of cars in its price field. You would find the same steering wheel of hard rubber and steel core in Essex and the \$3,000 car. You would find the same Timken tapered wheel bearings, the same roller tappet bearings, the same use of five cross members in the rigid frame. Cars of Essex price class usually economize with mushroom tappet bearings, ordinary roller bearings in the wheels, and three cross members in the frame. Aside from such self-evident superiorities as its brilliant performance, beauty and quality that you can see and feel in the very upholstery, the wheel you handle and the hardware you touch—please compare with any car—the advantages we have itemized here because they speak for the complete quality way in which the new Essex Super-Six is built—things seen or unseen.
