

HOMER H. B. MASK CONDUCTS FIELD DEMONSTRATION

Number of Farmers Hear Fertilizer Expert at Cotton Test Plots Near Here

A very interesting field meeting and fertilizer demonstration was conducted by the Agricultural department of Cool Springs High School at the cotton fertilizer test which they are conducting on the Forest City-Carolene Highway Wednesday morning, October 17, at 10:30. The meeting was well attended and the principal talk was made by Homer H. B. Mask, fertilizer expert, in charge of the Chilean Nitrate of Soda Educational Bureau. Mr. Mask complimented the students very highly upon their test plot. He said it was one of the best he had seen in the state, and demonstrated very clearly the types of fertilizer best suited to land in this section.

Test is made up of five plots of one tenth of an acre each. These plots were all fertilized differently. The students are picking and weighing the cotton and keeping accurate records of the expense and profit of each plot.

The twenty farmers who attended the demonstration were well impressed by the test and several were heard to say that they intended using a side dressing of some quick available ammonia on their cotton next year. One of the vocational agriculture boys, when he heard this decision, remarked that it was the first time he had ever been able to teach his daddy anything.

The meeting was attended by twenty farmers, fifteen agriculture students, County Agent Patton, J. M. Osteen, supervisor of vocational agriculture for this district, Mr. Birmingham, agriculture teacher from Harris, A. B. Bushong, agriculture teacher from Ellenboro, and D. H. Sutton, agriculture teacher from Forest City.

WOMAN'S CLUB WILL MEET IN RUTHERFORDTON NEXT YEAR

Rutherfordton, Oct. 22.—District Four of the North Carolina Federation of Woman's clubs, which met in Gastonia recently will meet in Rutherfordton in the fall of 1929. A large number of ladies from here attended the meeting. Mrs. William Alexander of Shelby, was elected president.

RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderlie at night. Next day bright. Get 24 for 25c today at Hall-Rudisill Drug Co. 26-ft

ADMINISTRATOR'S NOTICE

Having qualified as administrator of the estate of H. P. Harrill, deceased, late of Rutherford County, North Carolina, this is to notify all persons having claims against the estate of said deceased, to exhibit them to the undersigned at Forest City, N. C., on or before the 3rd day of October, 1929, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.

This, the 3rd day of October, 1928.
F. B. HARRILL, Administrator of H. P. Harrill Estate.
Ridings & Jones, Attys. 52-4t

ADMINISTRATOR'S NOTICE

Having qualified as administrator of the estate of A. A. Setzer, deceased, late of Rutherford County, North Carolina, this is to notify all persons having claims against the estate of said deceased, to exhibit them to the undersigned at Spindale, N. C., on or before the 10th day of October, 1929, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.

This the 10th day of October, 1928.
ULYSSES SETZER,
Adm. of A. A. Setzer, deceased.
1-4t. Ridings & Jones, Attys.

RECALLS ANCIENT ROMAN HISTORY

Anti-Smith Democrat Declares There is Nothing New Under The Sun

Shelby, R-5, Oct. 22.—King Solomon is credited with saying, "There is nothing new under the sun," but the same conditions did not prevail in his realm as are found in North Carolina during a political campaign.

All that is venerable and all that is novel now changes place; and the definitions as given by lexicographers, history, and even the exact rules of mathematics are affected.

If a supporter of Tammy uses the most abusive language,—calling people who have the moral courage to express and vote their convictions, they are, forsooth, declared bigots, intolerants, liars, bodysnatchers, hardened reprobates and in danger of hell fire. If a man with no partying in his nose claims that he has no objection to the religious faith of a candidate,—he is promptly

adjudged a liar, a callumnator, an ignoramus who doesn't know a hawk from a handsaw. History invests the

faith of Roman Catholicism with a crimson seal, and the inquisition with such instruments of torture as the jocund stake and fagot, the mirth-provoking rack and thumbscrew and other diverting appliances that were used out of the eucharistic impulses of some papal authority to comfort the pure in heart and call wayward sinners to repentance. When the saintly Nero fiddled in holy ecstasy while Rome was burning, charged the conflagration to the Nazerenes, and playfully fed them to lions, tigers,—and burnt them as human torches, this was the forerunner of such diversions as the slaughter of men, women, youths and maidens in the blend of Paganism, Judaism and Christianity inaugurated by St. Constantine after the good missionary, Nero, rested from his labors. But the adherents of the holy Catholic Church and the benign Knights of Columbus, repudiate all such history. Nobody, according to their creed, ever persecuted except Oliver Cromwell, John Calvin, John Knox, and the blatant and bloody Quakers. All who have enough brains to fill a hol-

low tooth, know that Quakers oppose war, whiskey and slavery, and never persecuted anybody.

The histories that we ignoramuses studied and taught, give Lord Baltimore, Judge Gaston, the priests who came here with the French explorers like Marquette and Joliet, credit for being humane and charitable; but beg leave to criticize the methods of St. Menendez, who wantonly murdered French Huguenots in Florida who had surrendered; and the instigators and perpetrators of Massacre of St. Bartholemew; as considerably lower than the angels.

Then the dilating and contracting powers of auditoriums is truly miraculous. When a wind-jammer sounds the loud timbrel over Egypt's dark sea for the lovely trio, Smith, Raskob and Johnson; the audience is from 100,000 to 500,000; while a proponent of sobriety and the type of Democracy enunciated by Jefferson, Jackson, Tilden, Cleveland, Bryan and Wilson; can fill the same building and it will be reported by a Smith vassal as maybe 250 ignorant, unwashed and untutored auditors.

Strange as it may appear, I was a democrat bearing the banner of equal rights to all and special privi-

leges to none; when some ranting evangels of the spike team of celebrities above mentioned, were puking and puling in the ranks of Marion Butler, Palmer and Buckner, etc. No anti-Smith champion denies the right of any man to vote for Al Smith if his conscience so dictates; but, by the same token, we claim the same right to vote our sentiments. Some of the most flagrant and arrant "bolters" of the past are very noisy now showing their marriage certificate; and the self-appointed leaders of the Smith contingent are dividing their profane ebullitions between Senator Simmons and others who fear not the emissaries of Smith, Satan, nor the Pope of Rome. We propose to count fish with you on November 7, 1928, and unless all signs fail we are likely to win out. If we win, we don't expect to crow, and if defeated we have neither excuse nor apologies to offer.

CORN CRACKER.

When corn is planted after red clover it is hard to tell where the crop has been top-dressed with sulphate of ammonia, says A. P. Rudisill of Gaston County.

SUPT. CLYDE ERWIN HIGHLY HONORED

Appointed by Governor McLean on Committee to Revise State History Textbooks

Raleigh, Oct. 22.—Governor A. W. McLean announced last week the personnel of the sub-committee appointed by him to study needed changes, particularly as to North Carolina history, in the curricula of the State public schools. The committee appointed today will report its findings to the educational conference called by Governor McLean which held its first meeting October 8.

The sub-committee appointed by Governor McLean:

A. T. Allen, State Superintendent of Public Instruction; Miss Sallie Joyner Davis, East Carolina Teachers College; Miss Anna Holdford, Raleigh; Clyde A. Erwin, Rutherfordton; Miss Meta Liles, Carthage; Park Mathewson, State Department of Conservation and Development; and Dr. W. C. Jackson, North Carolina College for Women.

High in Quality---Still Low in Price

We suppose every man sooner or later makes his share of mistakes in his business. We know we have.

But, looking back over the years, we're dead sure we made no mistake when we tied up with Goodyear Tires.

We realize there are other tires on which we could have made a longer profit; other tires we could have sold cheaper; other tires on which we could have had all sorts of special concessions.

Just the same, we know from what our customers say that for a permanent tire business there is no better keystone than Goodyear dependability and quality.

LOOKING THEM OVER

Our conviction about Goodyear Tires isn't the result of a sudden bright idea or of any high pressure salesman's ballyhoo. Not a bit of it.

Every so often we make a trip to Akron, Ohio, the world's tire center, and look over the various tires on their home grounds.

We've been through factory after factory there and have always come away with the same idea—that Goodyear Tires are the most expensive tires to build, and in the long run, the cheapest tires to buy.

HOW ABOUT AN EXTRA TUBE? Goodyear Tires deserve Goodyear Tubes. These tubes are tested by stretching under water. Extra heavy—extra strong—no pin holes—no slow leaks. We have your size.

It seems to us a lot of other folks have somehow gained this identical idea—the world over, more people ride on Goodyear Tires than on any other kind.

THERE'S A BIG DIFFERENCE

Motorists are beginning to learn nowadays that there's a big difference in tires, although they all may look pretty much alike.

Some are made with skimpy short-staple cotton; some have an overdose of "filler" in the rubber of the tread; some are long on looks and short on quality.

But you don't have to have a microscope to be sure that the Goodyear Tire you get is a real money's worth—their big average mileages tell the story.

Those average Goodyear mileages are so darned good that with them as a basis we've been able to build up the biggest and steadiest growing tire business in this part of the country.

All in all, we're mighty proud to be selling Goodyear Tires—it's a real satisfaction to deliver merchandise so reliable and sound.

They are as standard as the American dollar and do we hear any disagreement when we say that's the best in the world?
