SECOND CAR OF LIME BOUGHT BY ELLENBORO FARM

Ellenboro, Nov. 13.—The second car of lime ordered by the agricultural department of the Ellenboro school this fall recently arrived in Ellenboro and has been distributed to nine farmers in the community by the teacher of agriculture.

A more productive soil by the use of lime is the goal of many Ellenboro farmers. Lime in the soil is essential for the clovers and many of the field crops are greatly helped by its application to our soils.

The following are the names of the farmers who received the lime: M. E. Bridges, Rex Bridges, Grover Hamrick, J. L. Hamrick, Claud Blanton, L. C. Price, W. R. Philbeck, Joe Price and Walter Black.

GRAND JURY REPORT FOR NOVEMBER TERM OF COURT

We, the Grand Jury for November Term of the Superior Court of Rutherford County, wish to submit as our report the following:

1. We inspected the office of the Register of Deeds and found all records neatly and well kept. We found, however, that the work of transferring the plats from the old books to the new books has not been completed, which makes it rather difficult for one investigating the records to locate public plats. We recommend that this work be rushed to completion as early as possible. We also recommend that the Register of Deeds secure a combination for the vault door.

2. We visited and inspected the office of the Clerk of Superior Court, and found the records well kept and in good order. We found, however, that in a few instances guardians have failed to make their report, and we recommend that the Clerk issue citations to these parties to file their reports promptly.

3. We have inspected the courthouse and find that the building is well kept and in excellent condition.

4. We visited the county jail and chain gang, and find both in a satisfactory condition. The plumbing is in good order and the bedding is sufficient. Prisoners stated that they were well treated. The sheriff is to be commended for the condition of the jail.

5. We inspected the county home, and find that the same is what the name implies. It is an institution that every person in the county should be proud of. All of the inmates are well cared for, and the premises, including the farm, barns and stock, are well kept. Mr. and Mrs. Royster are to be commended for these conditions and the home-like way in which it is conducted.

We wish to thank his Honor, Judge Michael Schenck, and the solicitor for their courteous treatment and co-operation during this term of court in connection with our services as a grand jury.

THE INTELLECTUAL LIFE

It is refreshing to note that a memorandum from the Student Council has been addressed to the university authorities at Yale formulating a series of reforms upholding the proposition that a college is primarily a place for study, and only incidentally for social and athletic recreation.

This will be refreshing to a number of fathers who are digging in to pay the expenses of their sons at school and heretofore have been worried because those sons seem to be more interested in sports and in social advantages than in intellectual improvement.

Of course every healthy boy is interested in athletics and is anxious to form proper social connections. But the general impression prevails among fathers that boys ought to go to school to improve themselves from the chin up and not from the chin down.

It has been too often the case that boys have attached a social stigma to those who get class marks higher than C. Those who go in for study have been characterized as "charks" or "grinds." Reference to one's studies in social life has been looked upon with disdain and the only thing to be boasted is a place on the football team or the rowing crew.

Of course a boy is a healthy animal and he doesn't care to be subjected to intellectual snobbery, but at the same time, this New Haven memorandum asserts, a college finds its reason for being and its prestige in the achievements of the intellectual minority among students.

It has been generally presumed that the youth of the country is somewhat wild and is out for a good time only. Those who emphasize the things that are intellectual in any group of people must necessarily be in the minority, but it is refreshing to see that this minority has been

coming in to better repute during the last fifteen years. There are probably quite as many serious-minded youths in the country as there ever were. Youth is not at all out for a wastrel life. There still remain quite a number of the elect. And on the whole the prospect for a better world in the future is bright.

This memorandum suggests that after the first two years the men who are assiduous in their studies are to be separated from those who are going in for a good time and barely enough study to get by. The honor men's instructors should be largely tutorial and they should have the best men on the faculty.

It is needless to say that this proposal of the undergraduates has the entire sympathy of the faculty.—Dr. Frank Crane.

A NEW TREASURE SEARCH BEGINS

Now a copy of Edgar Allan Poe's first published work, "Tamerlane and Other Poems, By a Bostonian," so rare that no copy is in the Library of Congress, is reported to have been sold for a price in excess of \$20,000. This event ushers in a new "treasure search" in America. For now that American authors' first editions are beginning to fetch big prices, every farmhouse presents an opportunity. Somewhere in the attic there may be a volume worth thousands.

From Shakespeare to Lewis Carroll, first editions of English authors have been sold for fabulous sums. In comparison, \$20,000 is paltry, but collectors always search the libraries and museums of other countries before they fall back on those of their own. The antique furniture of Europe was eagerly bid up before our farmhouses were ransacked to yield their treasures and we realized that American antiques could command a rich market.

We are off for a real start, with real money being paid for an American first edition. Poe is in the lead as only six copies of his first book are known to exist. Other sensational first edition sales are sure to follow—and throughout the land unknown to themselves, are men whose bookshelves hold treasures that will some day enrich them.

SPINDALE ENJOYS COMMUNITY NIGHT

Basketball and Volley Ball Feature of Program — Pastor Pounded Tuesday

Spindale, Nov. 12.—The first community night program of the season was given at the Spindale House Saturday evening. Stunts, games and athletic contests were featured and were participated in by both young and old. A volley ball game was also a feature of the evening. The program closed with a basketball game, the Spindale Athletic Club against the Cliffside club. The game was a rough and tumble affair, but the players showed some real makings of a basketball club on both sides. The local club has unusually bright prospects for a heavy, winning team this year. The score and line-up follows:

Spindale (42) pos. Cliffside (12)
 Hardin (18) RF McSwain (8)
 Nanney (6) LF Weathers (4)
 Sherrill (6) C Simmons (8)
 Shippy RG Hawkins
 Williams (6) LG Bridges

Substitutions: Berry (6) for Nanney; Metcalf (2) for Bridges.

On Friday evening, at 8:15, the Spindale Athletic Club meets the Spartanburg Athletic Club at Spindale. This will be the first heavy game of the season.

Rev. and Mrs. T. C. Jordan left Wednesday for Burnsville, where Mr. Jordan begins his pastorate at the Burnsville Methodist church. Rev. W. A. Barber moved to Spindale the same day. Mr. Barber preached his first sermon Sunday evening at the Methodist church.

On Tuesday evening twenty-five or more members of the Methodist church gave Mr. and Mrs. Barber a pleasant surprise. These members gathered at the church, and later went to the parsonage where the larder was filled with a quantity of groceries.

Mr. and Mrs. Carl Hable, of Baltimore, Md., were the guests Sunday of Mr. and Mrs. Jack Michalove.
