

## Amendment To Increase Legislators' Pay Passes

Raleigh, N. C., Nov. 19.—An official tabulation of returns from the entire State made Saturday by R. C. Maxwell, clerk of the State Election Board showed that the proposed constitutional amendment to increase the pay of members of the Legislature passed by a majority of 212 votes, but that the two other amendments were rejected by large majorities in the November 6 election.

Early in the day, Mr. Maxwell stated that with returns missing from three counties, Jackson, Swain and Hyde, all of the amendments appeared to have been rejected. The three counties, reports from which were received in the afternoon, gave the legislative pay proposal a sufficient lead to overcome the unfavorable indications.

Mr. Maxwell said that complete figures for the State were not available on the presidential race, but

that returns in hand indicated that Herbert Hoover's lead over Governor Alfred E. Smith would range between 60,000 and 65,000.

The complete figures on the legislative pay amendment were 147,946 in favor; 147,734 against.

On the amendment proposing to authorize the creation of 24 solicitorial districts, the vote, with four counties missing, was 113,750 in favor; 144,734 against; an adverse majority of approximately 31,000.

With the same four counties not included, the vote on the third amendment, to authorize the classification of property for taxation, was 115,713 in favor; 152,392 against.

The four missing counties in Mr. Maxwell's tabulation were Hyde, Jackson, Swain and Wake. The majorities against the two amendments rolled up in the remainder of the State could not be overcome by the missing ballots, it was pointed out.

## SCHOOL VISITING DAY IN TOWNSHIP NOVEMBER 27

Patrons of Cool Springs Schools Requested To Observe Methods of Teaching

The parents and citizens of Cool Springs Schools district are invited to visit the grammar schools and the high school on the morning of Tuesday, November 27th. Many of the parents and friends of the school would like to observe the methods now taught in the schools. The opportunities and advantages which the pupils in Rutherford County have, are as far ahead of the advantages of the old log school houses as the automobile is ahead of the ox wagon in transportation.

What do you know about your schools? Ask yourself this question and try to answer it fairly. All the parents should be given an opportunity to see the teachers and know the methods which are being used in instruction. You should see the desks, maps, primary equipment and other supplies of instruction.

The Forest City Grammar school was accredited last year by the state department of education. The Alexander Grammar School will go on the accredited list this year. Mt. Pleasant, Bostic and Pleasant Grove schools have as good teachers as any of the schools in the district. The reason why they cannot be accredited, is due to the fact they haven't enough pupils to employ as many as seven teachers. All the schools are doing standard work but only three of the schools including the high school are large enough to be accredited.

It will be interesting for the people to know that most of the money for this extra equipment was raised by giving plays and other form of entertainment. This with extra appropriations from the state department of education enabled us to get this equipment and make our schools standard.

Perhaps some people would be surprised to know that Rutherford County has more high schools on the Southern Accredited list than any county in North Carolina. Also some

people might not know that nearly half of the revenue derived from special school tax goes to pay bonds and interest on bonds of the school buildings in Cool Springs Township. Visit the schools of Cool Springs Township, Tuesday, November 27, and see what much of your tax money goes for. The fathers as well as the motherse are invited to visit the schools on the date mentioned above.

Some citizens might be delighted to know that five to six hundred dollars a year has been saved on for the past three years. Some people do not know that athletics in the schools do not cost the tax payers anything for equipment, transportation of players, etc.

Please visit the schools of Cool Springs Township and get some first hand information about the schools. When you see what you are getting from your school tax, you will agree that this is the best investment that you have made. School tax when wisely spent is not an expenditure but an investment which will return greater dividends than any investments in the township.

## RUPTURE EXPERT COMING TO FOREST CITY

On Saturday, November 24, at Moore's Hotel, From 10 A. M. to 5 P. M.—One Day Only!

Hundreds in this section are wearing this wonderful appliance which holds the rupture perfectly no matter what position the body assume or how heavy a weight you lift. It gives instant relief, contracts the opening in a remarkably short time and strengthens the weak tissues so that they frequently recover their previous natural retaining power, needing no further outside support. Stomach trouble, backache and constipation often caused by rupture promptly disappear.

Remarkable results have been obtained with recent and not yet fully developed ruptures and many old ones also.

No leg straps or elastic belts are used. Can be worn while bathing or sleeping, are highly sanitary, being impervious to sweat.

Call on me and I will show you.

Frankness

A tramp called at a Forest City home not long ago, so reports have it, and asked for a little financial assistance.

"But why do you beg?" asked Mrs. B.

"I'll tell you the truth, Mum, I begs to get drunk."

"But why do you drink?"

"To get up me courage to go around and beg."

Season your fuel wood and it will give more heat, says the Forest Service of the U. S. Department of Agricultural. To season wood rapidly, it should be piled or "ricked up" in narrow long piles fully exposed to sun and wind and protected against rain.

## Indian Movie Star

Miss Dorothy Janis, full-blooded Cherokee Indian, weighing 90 pounds, is hailed as the movie find of the year. She is to star in a South Sea Island picture.
