

## SPINDALE WINS OVER SPARTANBURG

Spartanburg Athletic Club Defeated by One Point Friday Evening

Spindale, Nov. 19.—The Spindale Athletic Club defeated the Spartanburg Athletic Club here Friday evening on the Spindale House court by a 32-31 score. The game was the first played by either team, and both quints showed lack of 'pep' and agility. The visitors displayed a fine defense line-up, and practically all of the home team's goals were made from a distance. Spindale maintained the lead from the first of the game, but was never able to pile up a lead of more than a few points. The first quarter ended in a tie, 7-7; the second was 13-15, the third was 20-25 and the final ending 31-32. In the last quarter, with the score one point in favor of Spindale, Spartanburg caged a long shot. However, Spindale succeeded in placing one through in the closing seconds of the game to win the scrimmage.

The line-up:  
**Spindale (32)** Pos. **Spart'g (31)**  
 Hardin (10) Kleckley (9)  
 R. F.  
 Berry (12) Walters (2)  
 L. F.  
 Sherrill (4) Huskey (8)  
 C.  
 Shippey Owens (12)  
 R. G.  
 Williams (2) Painter  
 L. G.  
 Substitutions: Clay (4) for Sherrill; Ridgeway for Painter.

**Marion Loses to Spindale**  
 Eastside Mill, of Marion, lost to the Spindale Athletic Club Saturday evening at Marion, by a 25-31 score. The Spindale team kept a small lead throughout the game, except in one quarter. Three well placed shots in the last half, made by Berry, decided the game. Line-up:  
**Spindale (31)** Pos. **Marion (25)**  
 Nanney (3) Guemaker (2)  
 R. F.  
 Clay (8) McCall (13)  
 L. F.  
 Sherrill (6) Nichols (2)  
 C.  
 Shippey Settle (2)  
 R. G.  
 Shehan Miller (6)  
 L. G.  
 Substitutions: Berry (14) for Nanney; Williams for Shippey; Marion Walker for Guemaker.

## Sure Way To Stop Coughing

This Prescription Relieves Almost Instantly

Coughing is usually due to causes which patent medicines and cough syrups do not reach. However, Thoxine, a famous doctor's prescription relieves coughing with the very first swallow. It works on an entirely different theory, has a double action, relieves the irritation and goes direct to the internal cause.

Unlike most cough medicines, Thoxine contains no chloroform, dope, or other harmful drugs. Safe for the whole family. Also excellent for sore throat. Quick relief guaranteed or your money back. 35c., 60c., and \$1.00. Sold by Peoples' and all other good drug stores.

## Teachers and Students

Will find it to their advantage to call at this office for all kinds of

Typewriter Sheets  
 Second Sheets  
 Cardboard, Etc.

You will find just what you want in our large stock and make a saving on your purchase.

### Choice of Empire State

Franklin D. Roosevelt, elected Governor of New York State on a Democratic ticket, is now being boomed in certain quarters as a 1932 presidential candidate.

## FIELD MEETING HELD NOV. 13

Field Meeting and Fertilizer Demonstration Held on Farm of Mr. W. E. Lewis

A field meeting and fertilizer demonstration conducted on the farm of W. E. Lewis by the students of vocational agriculture of Cool Springs High School, November 13th at 3 o'clock, was well attended and very interesting. The test plots had been harvested by the students and their results showed that profit of a little over 37 per cent resulted from adding a side dressing of nitrate of soda at the rate of 200 pounds per acre when the corn is about knee high.

The students had piled the corn at the end of the rows in each of the 5 plots and Mr. Homer H. B. Mask, fertilizer expert from Raleigh, conducted the discussion. The 5 plots had been fertilized as follows: Plot one, 200 pounds of acid phosphate and 100 pounds of cotton seed meal per acre. This plot yielded 17.8 bushels of corn per acre. Plot two. The check plot, had no fertilizer at all and yielded 13 bushels of corn per acre. Plot three; 200 pounds of nitrate of soda, yielded 21.6 bushels per acre. Plot four, 250 pounds of acid phosphate, 25 pounds of muriate of potash, with 200 pounds of nitrate of Soda added as a side dressing when the corn was knee high, yielded 27.6 bushels per acre. Plot five, used the same formula as four except 300 pounds of nitrate of soda was applied. Its yield was 27 bushels.

Thus, the experiment showed that plot four is the best formula for this section. 200 pounds nitrate of soda side dressing pays. The gain being 10 bushels per acre over the common fertilizer used. The students are well pleased with the results of their test.

Mr. Mask showed in his discussion the relative merits of the kinds of fertilizer and the value of quickly available nitrogen to growing crops. Mr. Mask was assisted in the demonstration by J. M. Osteen, district supervisor of Vocational Agriculture.

An estimating contest was held, at which the persons present estimated the yield of corn from each plot. 6 prizes were given by the Chilean Nitrate of Soda Educational Bureau to the persons estimating most accurately. The first prize of \$3 was won by Billy Avant, a first year agricultural student. The other five prizes of \$1 each were won by W. G. Lewis, John Watkins, Hoyle Kennedy, J. S. Morgan, and George Avant.

About 30 farmers and boys attended the meeting.

### TWO COUNTY FARMERS SUFFER INJURY TO EYES

Rutherfordton, Nov. 19.—Two Rutherford farmers suffered severe injuries to their eyes in far removed sections of the county during the past week, one of them losing sight of his eye permanently, in two freak accidents.

W. H. Waters, of Rutherfordton, R-3, ran down a hill into his yard to scare a chicken hawk away, and bumped into a clothes line, which struck him in the eye. He was treated at the Rutherford hospital, and it is believed that the sight will be saved.

While driving a nail, A. R. Queen, of the Union Mills section, lost his right eye, when the nail glanced and struck him in the face. Mr. Queen was rushed to a Charlotte sanitarium, and is improving, but it is feared he will not see again from the injured eye.

Mr. Queen's son, Earl, lost an eye exactly one year ago, when a piece of steel flew into his eye while he was at work.

## JOHN EARLY, NOTED LEPER, IS CURED

Polk County Man is Released From Leper Colony and Will Return to Tryon

Washington, Nov. 19.—John Early, the leper, has recovered, the United States public health service announced Sunday and has been discharged. This it is asserted "is another triumph in modern medicine."

"In scientific parlance, his leprosy is arrested, which means that for more than a year microscopic tests of his blood and tissues have been negative for the leprosy bacillus," the health service explains. "He is well, although bearing on his face and body the scars of the disease. He goes forth during November, 1928, to mingle with his fellowmen, to live among his kindred, back to his little farm in the mountains of North Carolina, to be welcomed by

his friends. Although 54 years of age, he is rugged of constitution and is expected to round out a full period of useful and happy old age."

Early has been a problem to state and nation for a quarter of a century. At times he has slipped out of the hands of the authorities and roamed the country. His cunning industry and will power gave him a nationwide notoriety. Last year he escaped from the national leper home at Carville, La., and made his way to his old home at Tryon, in Western North Carolina where, for a time, he defied those who sought to send him back to the institution provided for him and others suffering from leprosy.

For several years Early was treated here by United States health service experts, but in 1921 he was transferred by special arrangements to Louisiana, where he has been since, except when dodging about the country.

Early was treated with Chaulmoogra oil. He rebelled against his fate, the routine of the painful

treatment, the discipline of the institution, and the segregation of himself and other lepers, and deserted the place occasionally, in defiance of interstate quarantine laws, departing in stealth at night, to make his way by automobile and train to North Carolina. In 1923, he came to Washington and registered at a downtown hotel. During his visit to North Carolina in 1927, old neighbors petitioned the United States public health service to suspend the law and permit him to remain there.

"The surgeon general," the health service said today, "was sympathetic, but was unable to grant the petition."

Early resisted, and kinsmen threatened violence against the federal officers, but the government persuaded them to yield. The leper was taken back to Carville.

It was explained by health officers today that Early, although well, will be subjected at intervals to microscopic tests and routine examinations.

### CHURCH CHANGES NAME OF THOMASVILLE ORPHANAGE

High Point, Nov. 19.—Mills Baptist orphanage will be the new name of the Thomasville Baptist orphanage, located at Thomasville, following action of the Baptist state convention in session here. The motion was presented from the floor by Rev. M. A. Adams, Rutherfordton, and passed without discussion.

The new name is to honor the memory of John H. Mills, founder and early friend of the orphanage, who for ten years was its first superintendent.

The change of name is subject to the approval of officials of the state of North Carolina, since the institution is regularly incorporated under laws of the state.

Top-dressing peach trees with one and one-half pounds of Chilean nitrate of soda per tree gave better quality of fruit in an orchard belonging to G. M. Grant of Alexander County.

# NEW RADIO

GIVES  
**Startling Results**

YES, startling! Performance that is new to radio. Hear it and you'll see. Simply amazing results, thanks to a new radio discovery—

## "Neutrodyne-Plus"

Philco engineers have found a way to use Neutrodyne—famous for purity and tone—combining with it a PLUS—super-power which gives amazing distance range, selectivity and volume—a combination new to radio!

**DISTANCE** Now you can get and fully enjoy out-of-town programs! You'll get many low-power stations which the average set is not powerful enough to pick up.

**SELECTIVITY** Marvelously short tuning! No more "groping." Stations come in clearly, sharply and without interference. One dial control—simple!

**PHONE** An actual RE-production just as rendered before the microphone. Low notes and high notes flawlessly reproduced. Just hear and be convinced.

**Highboy**  
 Exquisite furniture model in Louis XVI period style.

## Free Trial in Your Home!

Yes, we'll deliver the new Philco for you to try in your own home free! We'll just plug it into your light socket and leave it. Then operate it yourself—see how "Neutrodyne-Plus" gives you better performance and greater pleasure than you've had from radio before. If you're not delighted, we'll take the Philco back and that ends the matter. No obligation—no charge for the trial. It's free!

### Easy Payments

If satisfied—only a small down payment. The balance in easy monthly payments you'll never even miss!

### Trade-In Allowance

Yes, we will make you a liberal trade-in allowance for your old, out-of-date set. Now you can own the latest and best radio without taking a dead loss on your old set. Come in—get our quotation. No obligation.

### In Color

Now, for the first time, radio in color! Vivid colors to harmonize with the furnishings of your home. Your choice of five colors. Come in and see them!

**AND AT A PRICE** Furniture models at moderate prices—AND—the same Philco instrument in table models at popular prices! **MAXIMUM** Philco Performance no matter what price you pay.

# Call - Look - Hear

Come in—see and hear the Philco, or send this coupon. Get the full details of our liberal offer. No obligation.

### or send coupon

GENTLEMEN: Please send me without obligation, descriptive literature on the Philco Electric Radio; also full details of your Free Trial, Easy Payment and Trade-In Allowance Offer.
