### THROUGH THE PROGRESS OF CHRISTIANITY

The world is now enjoying a new era in education, art, and progress. We are bound together in friendship, brotherhood, and abiding faith. The people of different races have found that they can't live to themselves alone. More and more we find the power of christianity reaching out to all people. We find that wherever it has gone, there is peace, prosperity, brotherhood, and happiness.

In the middle ages superstition was on every hand. The principles of government were founded upon it. It governed the laws of that age. Even the mode of trials was based on it. The defendant was made to carry hot irons, dip his hands in boiling water, and many other foolish things. If this caused no ill effects the defendant was freed.

Upon the coming of christianity we find that such things were thrown away and the mode of trials was based on a more intelligent and enduring basis. The principles of government were made sound and free for the people, by its influence.

Again we find that the main cause of the fall of the Roman Empire was the coming of the Barbarians and destroying literature, art, etc. On the other hand, when the power of christianity was spread among these hords they became a civilized and powerful people. They changed from Barbarians to friends, from warriors to peace-makers, and were soon known as a God fearing people.

Let us look at conditions in China. A large part of China has never been christianized and we find that China is one of the most ignorant and helpless countries in the world. A country in which no one wishes to live except the Chinese and they are coming to the United States as fast as the laws will permit.

In the meantime, the United States

is one of the greatest nations in the world, and at the same time, ranks second in power. The United States was founded upon the basis of christianity. Our pilgrim fathers came to this land as christians, and christianity has played an important part every since the first pilgrim set his foot upon the American soil and said, “My Country tis of thee, sweet land of liberty, of thee I sing.”

There was once a time when the people studied nothing but war; when the Empires and nations had nothing in their hearts but revenge. Now, every country gives welcome to any person who wishes to come to her land and share in her blessings of christianity. Since christianity has been given to every land, love and brotherhood prevail. Now an American can go to Turkey, Italy, or any other European country and be safe as if he were under National care.

Christianity has played a most important part in progress. The foundation of progress was founded upon christian principles. Before its coming we had no influential christian schools, we had nothing in the way of communication.

Christianity is something we can admire; something we can rely upon in the time of trouble; something always by our side even though our friends have forsaken us. It is said that infamy is taught it by maternal lips; that laborers can look upon it in the midst of their toils and be happy; that old and withered age can think of it in his last days and be

happy ere he slumber in the grave. Thus the world has been wonderfully blessed by the everlasting doctrine—Christianity.—Lionell Smith.
