To Improve Our Service

FIRST: We have painted and remodeled our shop. It now looks like a new place of business. We have installed new equipment, and can turn out high grade work on short notice. We have invested \$4,000.00 in shop equipment alone.

SECOND: Our place of business is clean. It will stay this way. The floors are mopped every day. Mechanics change overalls every other day. Fender pads and seat covers are put on cars brought in for repairs to protect them from any dirt or grease spots. No danger of soiled clothing after your car has been repaired here.

THIRD: Our mechanics are Ford experts, and can serve you better than strangers because its our business to know the car we sell and guarantee from stem to stern. Sam DePriest is our shop foreman. Born and reared in the New House section of Cleveland County—He is a well known and widely experienced mechanic. He will meet you at the door, and see to it that you get service. N. F. Wessinger, Jim Mat' and Arthur Grayson are here to assist him. These men have had experience and know every bolt, nut and cotter pin by heart. Our work is guaranteed; so let the same common sense reasoning which prompted your choice of a Ford bring you back to our service Department for periodic checking and service.
