

DALTON BROTHERS SEVEN YEARS OLD

One of County's Largest Stores Will Celebrate Seventh Anniversary This Week.

Dalton Bros. this week is celebrating their seventh Anniversary of the establishment of the store. Just 7 years ago Dalton Bros. opened for business in one corner of their present building with about a \$3,000 stock of merchandise. Year after year, they have grown and expanded until today they have one of the largest and most up to date stores in this section of the country.

The store is one of the best planned stores in the country. Each department is separate and easily accessible to customers.

No store in the county carries a more complete line of merchandise than Dalton Bros. In shoes alone, they carry a stock of \$8,000; in men's clothing \$6,000. A new and up to date ladies' ready-to-wear department with a stock of \$4,000. This department is very gratifying. Many complimentary expressions have come from the public on the addition of this department.

Dalton Bros. have made their reputation on the high quality of merchandise handled. No article goes out of the store except with the guarantee that it must be satisfactory. They sell only nationally advertised products.

The sales forces of this store are

MISS EMMA DALTON

the most congenial and pleasant to be found anywhere. They are polite, courteous, and pleasant. It is a pleasure to trade there.

J. W. Dalton is manager of the store, a man of wide experience, having for many years worked with the leading stores of this state. He makes several trips to the north each year in search of goods. When a new article comes on the market he is the first to get it.

G. D. Dalton looks after the men's department and numbers his customers by the hundreds.

Miss Emma Dalton and Miss Johnnie Mae Hemphill look after the ladies side and are very popular with their customers.

Year after year Dalton Bros. have increased sales over the preceding years and from the looks of sales this year will be no exception. The store has three outstanding sales each year: Anniversary sale, Dollar Day sale, and July Clearance sale. One of the rigid rules of the firm is never to advertise an article either in price or quality unless the store can back it up one hundred percent.

Dalton Bros. number their customers by the thousands and expect to make many more as the years go by. Their seventh Anniversary sale starts Friday, September 27 and continues through Saturday, October 12th.

You get more for your dollar in America's finest medium-priced automobile

Today's Oakland All-American Six stands out unmistakably as America's finest medium-priced automobile. Its value supremacy has been established by facts revealed in comparison of the All-American Six with twenty other medium-priced automobiles. Let us go over all the results of this comparison with you. When you have seen how on every basis of comparison the All-American Six towers above its field—you will agree with us that you get more for your dollar in America's finest medium-priced automobile.

Proof of Oakland Value Superiority

The following facts were obtained from a comparison of the Oakland All-American Six with 20 other medium-priced automobiles. All told, 878 individual comparisons were made. Of these, Oakland proved to be distinctly superior in 451 or 51.37 per cent. The 20 cars combined were at best equal to Oakland on 382 or 43.50 per cent. And 13 of the 20 were higher-priced than Oakland.

WHEELBASE

Only one car as low-priced as Oakland has a wheelbase as long as Oakland's, which is 117 inches. That car requires a turning circle to the left of 42 feet as compared with Oakland's 36 feet. Six higher-priced cars have shorter wheelbases.

FISHER BODY

Only Oakland and two other cars in the field offer bodies by Fisher. And one of the two is nearly \$100 higher in price than Oakland. Of the 18 cars which have less-known bodies, 11 are priced above the All-American Six.

BRAKES

Only Oakland and one other car in its field use the fine type of brakes which Oakland employs. And no car in the field equals Oakland's 290 square inches of brake band area. Oakland's separate emergency brake operates on the transmission. Seven cars in the field have no separate emergency brakes, although three of them exceed Oakland in price.

PISTON DISPLACEMENT
Oakland's 228 cubic inch piston displacement is greater than 12 of the 20 cars in its price field. Of the 8 remaining cars, 7 are much higher priced than Oakland.

Consider the delivered price as well as the list (f. o. b.) price when comparing automobile values. . . Oakland-Pontiac delivered prices include only authorized charges for freight and delivery and the charge for any additional accessories or financing desired.

WHEN CHILDREN Need a Laxative

"We have used Theford's Black-Draught in our family for nineteen years. I have found it of great help in raising my family. I have given it to all six of my children. Whenever they complain of upset stomach, or begin to look pale and sickly, I make a tea of Black-Draught and begin giving it to them. In a day or two they are all right. I give it to them for constipation, and my husband and I both take it. I always give it for colds in winter, for I believe a way to prevent them is to keep the system clean." —Mrs. Doshie Terry, 1205 Fourth Avenue, Decatur, Ala.
