BYRD ANTARCTIC EXPEDITION IN NEED OF COFFEE

A brief radio message bearing an urgent request for five hundred additional pounds of coffee has been received from the Byrd Antarctic Expedition Base on the Ice Barrier Little America.

Within the short space of about one year the members of this expedition have consumed almost the entire original shipment of two and one half tons of Bokar Coffee. This quantity of coffee means 5,000 one pound tins, enough to supply a normal family for more than ten years. It is natural for the men on Little America, where they are enduring the bitterest cold known to man, to have a keen desire for a steaming hot cup of this stimulating beverage and this huge consumption of coffee is a certain sign of their linking the particular brand that is served.

Their request for coffee is being answered immediately by the Great Atlantic & Pacific Tea Company. A shipment of five hundred pounds of Bokar Coffee, of which the A & P food stores sell more than one million pounds a month, is being sent on the whaling vessel, Nielsen-Alonco, which left Norfolk this week and is sailing direct to the ice barrier on which the expedition is encamped. This will reach the ice barrier around Christmas as it is impossible for a ship to break through before that time.

DALTON BROS. STORE NEWS

By J. W.

Dr. J. M. Haymore is preaching old time religion in a most forceable manner. He is doing this town a world of good.

In behalf of hungry husbands, I would like to suggest that the ladies hold their club meetings from 3 to 5 o'clock and that they serve no refreshments. Hitherto, the ladies come home about six, full and satisfied. The result is they are very indifferent to husbands' supper, and no matter how charming the party is, it fails to satisfy that empty feeling in the stomach.

Miss Julia Grayson has gone to Mitchell college. She was with us for a long time and we are all going to miss her.

Miss Johnnie Mae Hemphill is our new saleslady. She is a live wire and has a host of friends. We feel fortunate in having Johnnie Mae in this organization.

Yes, we are seven years old this week. It does not seem long since we started in the Northeast corner of our present building with twelve pair of shoes, one dozen socks, two shirts, one necktie and three yards of gingham. That was really beginning on a shoe string. After seven years, we have added to that string until now we feel that we have a pretty good size cable.

Here is how we did it: The right goods at the right time at the right prices, depositing money instead of making notes and not buying too many automobiles. Simple, isn't it?

We always celebrate our birthday by putting on a big sale and marking the price down instead of up. We think we ought to be that generous one time a year at least. We want all our friends and customers to come in and buy all they can pay for and wish us good luck for another seven years, for as un-

welcome as it may sound, we are making our plans to stay right on. We like this town.

The whole truth is we are putting on a jam-up big sale and don't you let your husband or any one else keep you away.

There are two or three surprises for you, come and see.

TWO FINE YOUNG MEN TO ENTER BUSINESS

Messrs. Blanton Biggerstaff and Martin Mauny have purchased the stock and fixtures of the Forest City Cafe and expect to open next Saturday with one of the most up-to-date Cafe's in the state. With the very best in equipment, a first-class chef and backed by the experience of Mr. Biggerstaff, there is no reason why the new concern should not prosper from the very opening day.

Mr. Biggerstaff has had seven years' experience in the restaurant, hotel and cafe business and knows it from the ground up. Mr. Mauny is an experienced young business man, and both are popular in a wide circle. Both say they will give Forest City a business to be proud of, and The Courier backs the statement. The new and modern Cafe should prove a valuable asset to the city.
