**Legion Post Asks For New Members**

Learning that Willis Towery No. 74 of the American Legion has prepared to do its share, or more, in strengthening the Legion's ranks at this time when membership indicates the sincerity of the service men of the World war is what the Legion is trying to do, nationally, I am taking this opportunity of appealing to each of you to help.

Some veterans do not realize the vital importance of their support to the national organization, especially in the Legion's program for national legislation. The American Legion is chartered by Congress. The Legion must make an annual report to congress, and each week, the Legion membership is transmitted to the national capital to be available for the information of representatives and senators, if it is desired by them.

Following the neglect of congress last winter, in passing the Rogers bill, which provided for the proper care of 5,543 mentally ill comrades who are confined in over-crowded state institutions, the Legion publicly announced, at the beginning of the present session of congress, that its membership would be an indication of the earnestness of veterans in the Legion's request for additional government hospital facilities. Advance, 1930 membership broke all preceding records. The measure, appropriating \$15,950,000, was passed just before Christmas, when some leaders in congress had said early action was impossible. But the sincerity of the veterans of America was unmistakable, and congress took notice that the veterans of America are behind the Legion's efforts on behalf of the disabled.

Some day you may need the Legion's help. It is your duty now, to do what you can to keep this Legion of ours virile and strong. You will be repaid many times in the pleasure you find in the many activities of the Legion's work, and in the satisfaction of being a part of this greatest veterans' organization in the history of the world. Join with us, today.
