When Food Sours

Lots of folks who think they have "indigestion" have only an acid condition which could be corrected in five or ten minutes. An effective anti-acid like Phillips Milk of Magnesia soon restores digestion to normal.

Phillips does away with all that sourness and gas right after meals. It prevents the distress so apt to occur two hours after eating. What a pleasant preparation to take! And how good it is for the system! Unlike a burning dose of soda—which is but temporary relief at best—Phillips Milk of Magnesia neutralizes many times its volume in acid.

Next time a hearty meal, or too rich a diet has brought on the least discomfort, try—

For Forest City Merchants Only

Being one of a series of chats with Forest City businessmen in which they are told how they can increase their volume of sales.

There's No Need For a Fence Around Forest City

YOU can't put a fence around Forest City to keep Forest City's people from shopping elsewhere. Neither can you prevent them from buying from mail order houses.

None the less, it isn't by any means the hardest task to get Forest City's folk to shop and buy in your stores. It's a task, to be sure, but one in which your help will go a long way.

People buy where they are trained to buy. Educate them to buy in Forest City and they'll always buy there. And buying education is very largely a matter of advertising.

Advertising! That's the trick! Your own advertising and that of the manufacturers whose goods you strive to sell. Both, in your local home newspaper, should prove effective in keeping Forest City's business in Forest City and Forest City's dollars in Forest City.

Where the manufacturers' advertising is concerned, your task is easy.

When their salesmen come to sell you goods, talk up Forest City to them. Talk it up with enthusiasm. Make them realize how important Forest City is to you in turnover. How important it is to them in orders. How important it is to their companies in more sales.

Talk up Forest City so that these salesmen will pass the good word on to their sales managers who decide where advertising appropriations are to be spent.

With the advertising of more national manufacturers in your local newspaper, Rutherford countians will find it easier to shop in your stores. You'll find it easier to keep them coming to your stores. And there won't be any need for a fence around Forest City.

THIS newspaper has joined small town newspapers all over the country in a nationwide campaign to convince national advertisers that they can best assist small town merchants by advertising in the local, home town newspapers of the small town merchants.

You need the advertising aid of the manufacturers whose goods you stock—urge their salesmen to recommend your local home newspaper.
