A patent medicine testimonial occasionally thrusts greatness upon a small man.

A jack-knife is a dangerous thing, but it isn't half as dangerous as a jackpot.

Your wife, as well as your sins, will find your out.

An idle brain is the advance agent of a busy tongue.

What a splendid thing it would be if people who lost their tempers were unable to find them again.

For Forest City Merchants Only

Being one of a series of chats with Forest City businessmen in which they are told how they can increase their volume of sales.

Turning S - L - O - W Sales Into Quick Turnover

In this, the last of a series of six advertisements, the basic idea advanced in the preceding five is emphasized. That idea, simply, is this:

You've got to put forth every effort to keep Forest City's folk coming to your stores and buying in your stores.

Advertising in your local home newspaper can help accomplish that aim. Not only your own advertising, but the advertising of the manufacturers whose goods you stock as well.

You cannot get the advertising support of these manufacturers merely by wishing for it. You've got to make the manufacturers realize how necessary it is to you, if you are to sell their goods successfully.

And you can make the manufacturers realize it by selling their salesmen who call on you in Forest City—by interesting them in Forest City as an outlet for your merchandise—by interesting them in your local, home newspaper as the means to more sales of your merchandise in Forest City.

This is an opportunity, you merchants of Forest City, that you should make the most of, one that may mean all the difference between slow, infrequent sales and quick, profitable turnover.

You need the advertising aid of the manufacturers whose goods you stock—urge their salesmen to recommend your local home newspaper.
