Back Quit Hurting

"I was in a very weak condition from a serious sickness," writes Mrs. J. Leonard, 571 Joseph St., New Orleans, La. "I was so weak, I wanted to sleep all the time. I did not have strength to do anything. My back ached nearly all the time. I was just in misery. My mother told me I must arouse myself from the sleepiness, and take something to help get my strength back. She had taken Cardui and had been helped, so I decided to take Cardui, too. After my first bottle, I could see that it was helping me. I took four bottles at this time. My strength came back and I gained weight. Pretty soon, I was my old self again. My back quit hurting, and I haven't had any more trouble since I took Cardui."

Memorial Day Held At Montford Cove

Union Mills, R-1, May 19.—The memorial services were held at Montford Cove church on Saturday and were attended by hundreds and hundreds of people. The many beautiful flowers were placed upon the graves in the cemetery, then the pastor Rev. C. C. Groghan preached an excellent sermon, and a good picnic dinner was served at noon.

In the afternoon the Rev. Taylor, of Old Fort, preached a fine sermon. The names of the people who have been buried in Montford Cove cemetery during the past year are as follows:

"Things I Ate Hurt Me"

"I HAD a severe case of indigestion," says Mrs. Beil Buckheiser, 7 River St., Piedmont, S. C. "So many things that I ate hurt me, I almost quit eating."

"I would burn in my chest. I had severe headache, and such a tight, smothering feeling. I would be obliged to eat a little, then it would hurt me."

"A friend said to me: 'Why don't you take Black-Draught?'"

"I was just too weak then to do my work. I began taking small doses after meals and in just a few weeks I could eat anything I wanted to, then take my small dose of Black-Draught and feel fine. I soon regained my health and strength."

Costs only 1 cent a dose.

"DAMES AHOY", COMEDY RIOT

Glenn Tryon joins the Navy in "Dames Ahoy", hilarious Universal all-talking comedy coming to the Romina Theatre, Monday and Tuesday.

"Dames Ahoy" gives Tryon one of the funniest roles of his sensational comedy career. He plays the part of a glib who, despite his better judgment, goes aground on the reef of matrimony.

Helen Wright makes her first appearance on the screen as leading woman in "Dames Ahoy." Her beauty and acting ability assure her a successful career in films.

Otis Harlan and Eddie Gribbon appear as Tryon's fellow-gobs in the picture. All have uproariously amusing roles. Gertrude Astor also has a prominent part.

The greater part of the action of the picture is laid at a beach resort. The story concerns the efforts of the three gobs to save one of their number, played by Otis Harlan, from a designing blonde who has got her clutches on half of his pay.

Art decorations with the human body as a canvass played a large part in "Dames Ahoy."

She's DUMB!

It is dumb stupidity for any woman to have bad breath. It offends others—ruins you socially. The worst of it is you, yourself, never know when you have it. But you can be sure that you won't have it by gargling with Listerine. It instantly ends halitosis—improves mouth hygiene, and checks infection. Lambert Pharmacal Company, St. Louis, Mo., U. S. A.

Typhoid and Diphtheria Preventative Campaign

Typhoid and Diphtheria Campaign starts June 2, 1930, and continues through July. These treatments are given free by the County Health Officer at the following places and dates. The people should avail themselves of these preventative measures. The above named diseases are quite common and often-times fatal therefore you should take advantage of these protective vaccinations to stamp them out as nearly as possible.

All children should have Toxin-Antitoxin against Diphtheria from six months to six years. These treatments are practically painless and harmless and I urge all parents to give their children these treatments. Consult your family physician and act upon his judgment in these matters.

I am making these dispensary points as convenient to the people as it is possible to do, to make it County-wide.

I appeal to the ministers, teachers, medical profession, Kiwanis, County Club, editors and all other agencies who are vitally interested in the preservation of the health of our people, to lend their influence in these matters. The good that can be accomplished is untold and invaluable, but depends almost entirely on the co-operation and interest that the public may take in these health measures.

Hoping the public will interest themselves is my sincere wish and desire.

Very truly yours,
J. C. TWITTY, M. D.
