

BANK PROPERTY AT AUCTION

Harrill and King Will Sell Valuable Real Estate July 24 in Forest City and Caroleen.

Harrill and King, local real estate dealers, will sell at auction Thursday, July 24, some of the best business property in Rutherford county. This is part of the old Farmers Bank and Trust company's property, and is located in Forest City and Caroleen.

This property will be sold to the highest bidder, and proceeds from the sale will be turned over to Mr. John D. Biggs, liquidator for the defunct bank, who will apportion it out on the liabilities of the bank. Messrs. M. J. Harrill and G. C. King who are handling the sale, are anxious that the property bring as much as possible, as every extra dollar realized in the sale will mean that much more for the depositors of the Farmers Bank.

The property includes the building and all the equipment formerly used by the Farmers Bank in Forest City; the three story brick building adjoining the Romina Theatre, known as the Cyclone Auction Company building; the brick building occupied by People's Drug Store and the Western Union office; the brick building located next to Blanton's Cafe and Southern Hardware company; a modern six room residence at corner of Beaver and Broadway, known as the Oscar Price home, all located in Forest City. The building formerly occupied by the Farmers Bank and Trust Company in Caroleen, also all of the equipment, will be sold on the same day. The sale begins in Forest City at two o'clock, and will close in Caroleen at four o'clock.

This property is some of the most desirable and most valuable business property in Rutherford county, and means a great opportunity as an investment or rental proposition for some purchaser.

Reasonable terms which will be announced on day of sale, will be given on all of the property. A band concert will be a feature of the day.

RETURNS FROM KENTUCKY.

Rev. and Mrs. M. F. Moores and family have returned after an extended visit to Lexington and Richmond, Kentucky, and other points in the Blue Grass state. Mr. Moores will fill his usual appointment next Sunday at the Methodist church. Mr. Moores reports unusually dry and hot weather in the portions of Kentucky which he visited.

Miss Lois Moores went to Springfield, Ohio, last week where she will spend sometime with her sister, Mrs. W. R. Lowery.

The corn crop in Onslow county will be increased by 200,000 bushels this season due to improved methods and the effort to decrease the shortage of 400,000 bushels existing last year.

MIKADO

Have Your Scribblings Analyzed
The YELLOW PENCIL WITH THE RED BAND

Louise Rice, world famous graphologist, can positively read your talents, virtues and faults in the drawings, words and what notes that you scribble when "lost in thought".

Send your "scribblings" or signature for analysis. Enclose the picture of the Mikado head, cut from a box of Mikado pencils, and ten cents. Address Louise Rice, care of EAGLE PENCIL CO., NEW YORK CITY

FLORENCE MILL NEWS BLACK AND GOLD ARE TAG COLORS

Florence Mill, July 21.—Elleree, the six years old daughter, of Mr. and Mrs. Harrill Frady, was taken to a hospital at Charlotte where she underwent an operation last Friday for the removal of an eye. At latest reports she is recuperating nicely.

Mr. and Mrs. W. W. Fant, of Valley Falls, S. C., visited here Sunday.

Mrs. R. M. Jones continues ill, we are sorry to note

Mr. and Mrs. L. C. Condrey, Mr. and Mrs. B. H. Freeman and Mr. and Mrs. Frank Toney visited the State Hospital at Morganton Sunday.

A large crowd from the Florence church attended the revival meeting at Harmony church last week.

The children of Mr. and Mrs. L. C. Condrey are visiting their grandmother, Mrs. M. L. Brady at Chestnut Hills.

Mrs. Myrtle Sisk and son, Charles, of Shelby, is visiting relatives here this week.

Mr. S. E. Blackburn and family attended a birthday dinner near Marion Sunday.

Mrs. Bud Sisk continues ill, we are sorry to note.

Mrs. Mary Green, of Greenville, S. C., is spending some time here with her son, Mr. C. W. Green and family.

Spinners Defeat Weavers.
A baseball game of much interest was played at the Burnett Park Saturday afternoon between the Florence Mill spinners and the weavers.

The Spinners won the game by a score of 3 to 2. It was a pitching duel between Dickie Owens and Ed Scruggs. Owens slightly outpitched Scruggs principally on account of his extra sweat shirt. Burnett relieved Owens in the fifth, and after throwing one ball in ex-mayor Lowrance's back door he decided he was not in form for the afternoon's work. Jim Robertson made a sensational play by going all the way from second base to the pitcher's box to catch a high fly.

The umpire, Mr. N. H. Welch, made a beautiful dodge of Huntley's wild throw over to the coach on third base. The ball went high and a traveling salesman retrieved it from the bushes near Alexander. Slim Condrey, the big right-hander, delayed the game for awhile by using the ball to warm up, but for some reason could not get in form. Curt Nanney failed to come through with a hit, his alibi being that he had no uniform. Fatty Sorrels brought the fans in the grand stand, and bleachers, to their feet by making a long running catch of a high fly, but couldn't get his hands together, and the ball fell among the thorns and thistles.

TELEPHONE ASSISTS CUPID IN THE TYING OF KNOTS

When Albert Settle and Miss Marjorie Curran were married at Portland, Ore., Mrs. E. G. Eisen, mother of the bridegroom, was unable to leave her home in Omaha, Neb. However, this did not prevent her taking an active part in the ceremony, for, by means of Long Distance telephone service, she talked to her son just before the marriage, then listened to the ceremony, and afterwards congratulated the young couple and sent them her blessing.

Similarly, William J. North of Minneapolis "attended" the wedding of his daughter in Seattle, Wash.

Still another instance of the telephone's part in the affairs of Cupid is reported from Cedar Rapids, Ia. Mr. and Mrs. Forrest Stewart had gone to New York City on a honeymoon. While in New York they went to the steamship Olympic, ostensibly to dine with friends who were sailing that evening. During the course of the dinner, the bride was called to the telephone, and it was not until then, when her parents back in Cedar Rapids wished her "bon voyage" that she found out that, in reality, she was bound for a European honeymoon, the trip having been arranged as a surprise by the groom.

Sticking to her post while the flames raged scarcely five feet away just outside the door, Miss Lila Edwards, night telephone operator at Crescent Lake Village, Me., put in calls for apparatus from Auburn and Mechanic Falls, and for volunteers from various nearby points, to fight a fire which destroyed six buildings in the village. It was not until the switchboard was disconnected and carried away that she abandoned her post, and it was largely through her efforts that the loss to the community was not greater.

Alamance county farmers will sell between 500 and 1,000 cords of pulp wood this season in trying out this new source of farm income.

1931 Car License Plates to Be Attractive, Commissioner Maxwell Says.

Raleigh, July 21.—North Carolina's 1931 automobile license tags will represent a classy black and old gold color combination, Commissioner of Revenue A. J. Maxwell announced today. Next year's tags, Mr. Maxwell said, will have a black background with old gold numerals.

The plates will be manufactured at state prison by convict labor and will, it was estimated, cost the state about 10 cents a pair. One million will be manufactured.

Mr. Maxwell believes the new color combination will show up much better than that of the 1930 plates. The A. B. and C. classifications to indicate the different types of machines will be changed to numerals from 1 to 4 of different sizes from those of the license number, it was announced.

TELEVISION SHOWS IMAGE EIGHTEEN TIMES A SECOND

Apparatus Though Improved Is Still Bulky, Expensive and Complicated

Those who have witnessed the recent two-way television demonstrations in New York City and have been able to compare them with the demonstration by the Bell Telephone Laboratories in 1927 have noted the fact that the television image is now greatly improved. The image appears with swift detail for recognition of facial expression, but the effect is somewhat like looking at an animated cabinet-size photograph. What one sees is like an instantaneous moving picture done in black on a white background.

This image has detail made up of about five thousand discrete points of light, and is formed eighteen times a second. The photoelectric cells used in picking up light from the face have been much improved in sensitiveness and give rise to about ten times the current for the same amount of light as did those developed for the earlier demonstration in 1927.

At the time of the recent demonstration of two-way television, Dr. Jewett, Vice-President of the American Telephone and Telegraph Company, said: "While the equipment now available for television is simpler and more efficient than that employed in the 1927 demonstrations, and the results are very greatly improved, the terminal apparatus is still inherently complicated and expensive. This complication arises out of the necessity for producing, transmitting and reproducing a large number of distinct images each second if good results are to be obtained. No practical suggestions for eliminating this fundamental requirement have as yet been made and there appears to be nothing promising in our present knowledge of physical science."

Facts About the Telephone

There are nearly 7,000 telephones in the Equitable Building in New York City.

India has a very low telephone development, with but one instrument to every 5,000 persons. India, however, ranks second in world's population.

In preparation for the increased telephone demands, because of the performances of the Passion Play, the Oberammergau telephone system was changed this spring to the automatic type.

Des Moines, Ia., gained almost as many new telephones in the first four months of 1930 as it did during the entire year of 1929. Sixty-five per cent of the city's telephones are in residences and the remaining thirty-five per cent are in business use.

Dallas leads the cities of Texas in telephone development with 26.5 instruments per hundred inhabitants. Next comes Galveston with 24 per hundred persons, and Fort Worth with 23 to each hundred in population. Houston follows Fort Worth, with San Antonio holding last place among the leading popular centers of the State.

It takes twenty-three days to reach Buenos Aires, the capital of Argentina, by fast boat from New York, and twenty days to reach Santiago, Chile. It requires about a week for the newly established air mail to travel between New York and Buenos Aires. It requires but a fraction of a second for the voice currents to pass between the two cities by the new radio telephone service.

In the District Court of the United States for the Western District of North Carolina.

IN BANKRUPTCY.

In the Matter of—

MRS. S. L. STEIN—Bankrupt.

(Forest City, N. C.)

Notice of First Meeting of Creditors.

NOTICE IS HEREBY GIVEN

to all creditors and other parties in interest that the above named party has been adjudicated a bankrupt; that the first meeting of the creditors will be held in the law office of the undersigned Referee, 200 Law Building, East Avenue, Charlotte, N. C., at the time designated herein, at which time and place creditors may attend, prove their claims, elect a trustee, examine the bankrupt, and transact such other business as may properly come before said meeting.

This meeting will be held on Saturday, the 2nd day of August, 1930, at 4:00 o'clock, p. m.

This meeting may be continued from time to time without further notice.

All claims should be made out upon the regular bankruptcy forms, properly verified and sworn to, and filed with the undersigned Referee.

This the 22nd day of July, 1930.

R. MARION ROSS,

Referee in Bankruptcy.
