HAS THE LAXATIVE IN YOUR HOME A DOCTOR'S APPROVAL?

Some things people do to help the bowels whenever any bad breath, feverishness, biliousness, or a lack of appetite warn of constipation, really weaken these organs. Only a doctor knows what will cleanse the system without harm. That is why the laxative in your home should have the approval of a family doctor.

The wonderful product, known to millions as Dr. Caldwell's Syrup Pepsin is a family doctor's prescription for sluggish bowels. It never varies from the original prescription which Dr. Caldwell wrote thousands of times in many years of practice, and proved safe and reliable for men, women and children. It is made from herbs and other pure ingredients, so it is pleasant-tasting, and can form no habit. You can buy this popular laxative from all drugstores.

## When A CLEANSING MEDICINE Is Needed

"I HAVE taken Black-Draught all my life, whenever in need of a medicine for constipation," says Mrs. G. C. Burns, of Buna, Texas. "My mother and father used it in their home for years, and I was raised to think of it as the first thing if I had a headache or was constipated."  
"At one time I had indigestion real bad. I was all out of sorts; my skin was sallow, and I had gas pains. After a course of Black-Draught, I got all right. I have given Black-Draught to my children, whenever they needed a medicine of the kind."
