TALKS ABOUT MONEY MR.

THOMAS LEFT TO HIS BANKS

Lexington Dispatch:—The Rutherford county former bank official who made over \$180,000 insurance to a group of closed banks before he died a few days ago left a heritage to his community that should keep his memory green for many a year. It might not have been his fault that the allied banks closed, but it is certain that he had not escaped a portion of the blame. He might have left this money to his kin or friends, and they would have gone through life bearing a part of the burden of anger that had been directed against the insured. Who knows but what he has not left them the heritage of a restored great name that in value exceeds the sum of \$180,000.

During recent days taxpayers in Rutherford county have been holding meetings and voting to abolish several lines of public endeavor that perhaps are worth more to them than they cost in order that some small tax reductions might be affected. The county was a heavy depositor in these banks and its money has been tied up, with the prospect of only a partial recovery in dividends. The inheritance of the closed banks may prove a great aid to county funds and many also increase the dividends of many depositors considerably more than the taxes involved. And if this proves to be true the dead man has proven a benefactor of the first order.

NOT NECESSARY TO AMPUTATE MISS HALL'S LIMB

Miss Elva Hall, Saluda school teacher, who was hit by a car driven by Mr. Samuel Elmore, Jr., at Saluda recently is improving rapidly. According to reports reaching The Courier it will not be necessary to amputate Miss Hall's limb, as first reported. According to eyewitnesses and others the accident was entirely unavoidable. Mr. Elmore was traveling at a reasonable rate of speed, when Miss Hall stepped in front of the car.

Whites or yolks of eggs may be used instead of whole eggs in making fancy white or yellow cakes, or as an economy in using up parts of eggs left over. For most purposes 2 white or 2 yolks may be considered roughly the equivalent of 1 egg. When yolks alone are used a little extra baking powder is sometimes needed.

Neglecting to boil the glasses may in some cases cause fermentation of the jelly after a few weeks. Scalding the glasses with hot water is not so good a precaution against this undesirable result as boiling them.

Outing flannel makes a good drip bag for fruit juice when making jelly. It is preferred by some people to cheesecloth.
