

COUNTY FAIR WELL ATTENDED

Approximately 50,000 People Attend—First Prize Winners Announced—Best Fair Ever Held.

Between forty and fifty thousand people attended the Rutherford county fair, held Tuesday to Saturday, of last week. The attendance was good, but not up to the expectations. The fair was a success, financially. Greater interest was shown this year in the agricultural exhibits than heretofore. With three other counties participating, all available display space was taken up. The exhibits were the best ever shown. Automobile races Friday and Saturday afternoon were features of entertainment that were well attended. The races were sanctioned by the American Automobile Association, and it is expected that some new dirt track records were made, which will be reported when the time is officially checked by officials of the A.A.A. racing board.

COMING DR. A. W. DULA

EYE SPECIALIST

RELIABLE, EFFICIENT, DEPENDABLE
Licensed by examination and pronounced thoroughly competent to correct defective vision by State Boards of three States.

Over 25 years active practice and over 30,000 satisfied patients. Have your eyes examined and fitted now by Carolina's most Satisfactory Eye Specialist.

TO SEE BETTER SEE DULA
Children's eyes need examination. See me.

Forest City, Wednesday and Thursday Oct. 8th and 9th.
Hall-Rudisill Drug Store.

Rutherfordton, Friday, Oct. 10th.

Have your Eyes Fitted by Carolina's Foremost Eye Specialist.

DR. A. W. DULA,
Home Office, Lenoir, N. C.

Never wait to see if a headache will "wear off." Why suffer when there's Bayer Aspirin? The many millions of men and women who use it in increasing quantities every year prove that it does relieve such pain. And as surely relieves that of neuralgia; neuritis; even rheumatism. Doctors declare genuine Aspirin (with the Bayer Cross on every box and tablet) does not affect the heart. Any drugstore.

Carolina's Finest . . .

When another flour is offered remember that a substitute is "The right article, made of the wrong materials."

Eagle Roller Mill Company

Horse racing was also featured on Tuesday and Thursday afternoons. The animal circus acts and athletic acts before the grandstand each afternoon and night were drawing cards. The boxing bouts Saturday night were also well attended.

Prize Winners.
For community and individual booths and exhibits the judges made the following awards:
Watkins community won first prize, Ellenboro won second, Forest City high school agricultural department, third; Harris, fourth and Oakland, fifth, in the community exhibits. J. N. Cole, of Harris, won first prize on the individual farm exhibit; Mrs. A. V. Hamrick of near Forest City, second; Mrs. Monroe McDonald, of Oakland community, third, and J. E. Burgess, of near Chimney Rock, fourth prize in the farm exhibits.

A total of 490 birds were shown in the poultry exhibit hall. This set a new record for exhibits in poultry. H. K. Logan won the sweepstakes prize for the best bird in the show. S. M. Flack, of Forest City, was awarded sweepstakes for the best cockerel and hen, and Wilkie Meares, also of Forest City, won sweepstakes on the best cock bird in the show. This same bird won first place last year at the state fair. H. M. Queen had the best pen of chickens of any breed, and G. M. Williams had the best pen of bantams. First prizes awarded in the poultry exhibits follow:

White Leghorns: Arthur Grose, Forest City, R-2, two first prizes; W. R. Robertson, two first prizes; James Freeman, one first prize; G. V. Lydia (Henderson county) one first prize. Partridge Wyandottes: A. S. Harrill, Ellenboro, three first prizes; W. A. Wright two first prizes. Barred rocks: H. K. Logan, four first prizes; J. B. Robinson, one first prize; L. V. Lydia, one first prize; V. W. Hutchins, one first prize on light strain barred rocks; C. E. Laughridge, one first prize; J. B. Robinson, one first and Grant Allen, Union Mills, one first prize.

Buff Orpingtons: Lester Toms, Forest City, R-2, four first prizes. Rhode Island Reds: Herbert Queen four first prizes; Wilkie Meares, one first prize; H. K. Logan, one first prize. White Wyandottes: S. M. Flack, Forest City, three first prizes; A. S. Harrill, Ellenboro, two first prizes. In the livestock show H. M. Sane, of Rutherfordton, R-1, won the sweepstakes, also the sweepstakes for the best herd of cattle. The best pumpkin was exhibited by F. J. Harton, of Ruth, and the best watermelon by Charles Whitesides, of Uree. Lucile Allen, aged 12, won fourteen prizes in various departments of the fair, which set a record, especially considering the age of the contestant.

Mrs. Ralph Edney of Hendersonville, route 1, led in winning prizes for those outside of the county, winning 12. W. E. Moss, Hendersonville route 2, won several. Others winning one or more prizes, were: Clarence Benedict, Horse Shoe; E. B. Moss, Hendersonville; Bob Merrill, Gerton; Roland Moss and Miss Julia Moss, both of Hendersonville, route 2. Copisa orchards, owned by C. E. Sanders, Saluda, won three prizes, while Green River orchard, Tuxedo, owned by Frank Van Ness, won two. Whit Owensby of Edneyville; Lewis Pope, of Saluda, and Gaiher Rhodes, of near Hendersonville, all had excellent exhibits.

Races Enjoyed.
A large crowd saw Bruce Thompson, of Indian Trail, N. C., win the 10-mile race at the Rutherfordton county fair grounds Friday afternoon in the automobile races sponsored by the American Automobile Association.

There were seven entrants in the races, which were said to have been the best ever seen here. Thompson also won the first three-mile race, making the trip around

the half mile track six times in three minutes, 25 seconds. Charles Cyr, of Hollywood, California, was second.

Bill Neapolitan, of Germantown, Penn., won the second three-mile race in three minutes, 39 seconds. John Casey, of Norfolk, Va., won the third race in the same time. Neapolitan won the second. Charles Cyr beat Bruce Thompson in a two and half mile race between the two fastest cars by about three feet.

Steve Thomas, of Matthews, N. C. and C. C. Gray, of Lexington, were also in the races, while Sam Numis of Charlotte, was in charge.

There was also seven entrants in the Saturday afternoon races. Bruce Thompson and Bill Neapolitan again made records in the afternoon's events. A large crowd were present to witness the races. A new record is expected to result after the time is checked by the A.A.A. racing board.

Must Prepare Soil To Build A Lawn

There is only one place to plant the lawn and if the soil here is poor or fertile the seeding must be planned accordingly.

"The life and quality of the lawn depends largely upon how it is prepared," says Glenn O. Randall, associate horticulturist at State college. "It is foolish to think that a beautiful lawn can be started and maintained without close attention to preparation. If the soil in front of the house is lacking in organic matter, this must be added either by plowing under a green manure crop, such as cowpeas, or by adding well-rotted stable manure."

Most soils in North Carolina are acid, says Mr. Randall. This means that if a green manuring crop is turned under the soil will be more acid and it is nearly always advisable to apply from 1,000 to 2,000 pounds of agricultural limestone after the organic matter is turned under and preferably several weeks before the seed mixture is planted. It is also advisable to make an application of from 1,000 to 500 pounds of fertilizer containing as much as 8 to 12 percent of phosphorus and 3 to 4 percent of potash. This with the green and stable manure should give the necessary plant food.

Not only should the soil be well plowed to a depth of 10 to 12 inches but it should also be thoroughly pulverized until all lumps are eliminated.

In this section, it is best to plant the lawn in the fall. In central and eastern Carolina, Bermuda grass mixed with English rye grass to keep the lawn green in winter makes a good combination. Use 8 to 10 pounds of Bermuda seed and then scatter some of the English rye over the sod each fall and rake in. Where Bermuda is not desired a good mixture consists of Red Top, 30 percent; Rhode Island Bent, 20 percent; Kentucky Blue or English Rye, 20 percent; Creeping Bent 20 percent; and White Clover, 10 percent. Use this at the rate of 100 pounds an acre.

NOTICE OF TAX FORECLOSURE SALE OF LAND

Under and by virtue of power of sale vested in the undersigned as commissioner in an order of the court in a certain action or proceeding now pending in the superior court of Rutherford County, entitled "J. V. Bright vs. L. B. Lovelace et als," the said undersigned Commissioner will offer for sale at public auction to the highest bidder for cash, at the courthouse door in Rutherfordton, N. C., on

THURSDAY, OCTOBER 23, 1930, at about the hour of 12 o'clock, M., the following described tract or parcel of land:

A certain tract or parcel of land lying and being in Colfax township, Rutherford County, North Carolina, same being a part of the old Willis Womack land, adjoining the lands of Ida Roberson, Irvin Melton, Edney Green and Sheriff Martin, containing about 19 acres, more or less, and known as the L. B. Lovelace place.

This, the 22nd day of September, 1930.

B. T. JONES, JR.
Commissioner of the Court.
51-4t.

Twenty-four dairymen of Catawba county attended the first annual meeting of the North Carolina Dairymen's Association at Greensboro recently.

Smith White of Iredell county says it is not hard to keep boys interested in farm life if they have a share in the operations. His boys have their own livestock and crop acreage. This summer, he helped them to build their own fishing pond and swimming pool.

Added More Soda; Made More Apples

By increasing his application of nitrate of soda about his apple trees this year, F. G. Holman, fruit grower of Wilkes County increased his yield of marketable fruit by one and one-half bushels a tree and secured an extra profit of \$1.43 a tree in return. "Figuring the nitrate to cost \$50 a ton and the apples to sell in the orchard at the tree-run price of \$1 a bushel, increasing the application of soda from 4 pounds to eight pounds a tree brought Mr. Holman a net profit of \$1.43 a tree," says H. R. Niswonger, extension horticulturist at State college. "Mr. Holman also secured a half bushel increase in fruit where the nitrate was applied in September previous to the crop year. The demonstration was conducted with a block of Delicious apples which lacked vigor. Though they were 15 years old, the trees were undernourished and poorly grown."

In explaining his demonstration with Mr. Holman, Mr. Niswonger says in September 1928, twelve trees were given 4 pounds of nitrate soda a tree and this was checked against 12 other trees which received 4 pounds each in the following spring. The fall-fertilized trees gave a yield of 78 bushels and the spring-fertilized trees gave a yield of 72 bushels. The set of trees giving the yield of 78 bushels were again fertilized in the fall of 1929 with a 4-pound application and given an additional 4 pounds this spring. This was checked against the other 12 trees receiving eight pounds just as the buds were swelling this spring. The split application led in yield, making five bushels more than those getting the equal spring application and 18 bushels more than those getting only 4 pounds of the nitrate.

Tests made so far indicate that 4 pounds of nitrate is not enough and that it is probably best to add the material either in the fall entirely or as a split application in the fall and spring says the horticultural specialist.
