OVERMAN'S PROTEST ON NEGRO PORTERS HEADED

Washington, Sept. 29.—Upon learning a few days ago that the Pullman conductors had been taken off trains 11 and 12, running between Salisbury and Asheville, and Pullman cars on these trains in full charge of colored porters, Senator Overman promptly wired his protests to the Southern railway and to the Pullman company officials. He was gratified in being advised that his protest had been heeded and the regular conductors placed back on these trains. The leaving of the negroes to solely care for the comfort and convenience of the passengers did not set well with the senator. He declared that it would be an outrage to say the least, for women and children passengers on these cars to continue having negro porters fill the positions of white conductors.

Preparatory to the coming hatching season, the poultry flocks of Burke county are being rigidly culled and blood-tested.

TOLBERT URGES NEGROES TO VOTE

South Carolina Republican Leader Calls on Negroes to Vote in State Primaries.

Columbia, S. C., Sept. 29.—J. W. Tolbert, re-elected state Republican leader, in convention here advised negro voters to vote in South Carolina Democratic Primaries until "they gathered power to institute a strong Republican party". Tolbert was re-elected state Republican leader for a four-year term by an overwhelming vote.

The anticipated strong movement to overthrow Tolbert, who is the party's national committeeman, proved but a weak one. Opposed for the chairmanship by A. E. Blythe-wood, of Orangeburg, Tolbert was swept in by a vote of 102 to 13.

S. M. Parker, of Charleston, where he was formerly collector of customs, was named state vice chairman, G. C. Williams, a negro of Newberry, was elected treasurer, and D. J. Jackson, of Barnwell, likewise a negro, was chosen secretary.

MR. AVERAGE FARMER BROADCASTS.

Station YFBL — YOURS FOR BETTER LIVESTOCK — on the air. Mr. Average Farmer speaking.

Much talk still is being heard about the advisability of feeding wheat to livestock, and experiment station workers, county agents, and feeding experts are recommending that it be fed in liberal amounts to replace other higher priced grains.

An experiment conducted at Purdue university resulted in the production of slightly more milk with corn but more butterfat with wheat. Ten dairy cows were fed 189 days. Cows fed a grain ration of 400 pounds of ground corn, 200 pounds of ground oats, and 100 pounds of linseed meal produced 20,000.56 pounds of milk and 644.63 pounds of butterfat, while cows fed a grain ration of 400 pounds of ground wheat, 200 pounds of ground oats, and 100 pounds of linseed meal produced 19,938.9 pounds of milk and 653.38 pounds of butterfat.

This experiment resulted in cost of production of 33 cents per hundred pounds of milk with corn, and 31 cents per hundred pounds when wheat was fed, but in arriving at these costs corn and wheat were figured at the same price, 70 cents per bushel.

Corn is now selling for around 90 cents per bushel, while wheat is selling for a little over 80 cents per bushel. Using the results of the Purdue experiment and present prices of wheat and corn it can readily be seen that wheat would be considerably cheaper as a dairy feed than corn. Other experiments in feeding hogs and beef cattle have shown similar results.

Wheat, however, should not be fed without being coarsely ground, and it should not be fed without some linseed meal, which not only acts as a laxative but also makes the wheat feed more palatable.

Station YFBL — YOURS FOR BETTER LIVESTOCK — signing off.

BIRTHDAY DINNER.

Forest City, R-2, Sept. 22.—A birthday dinner was given Sunday for Mr. James Goode, who resides near Bethany church. Among those attending were Mr. and Mrs. Joe Goode and family; Mr. and Mrs. K. C. Kirby and family; Mr. and Mrs. John Mode and children; Mr. and Mrs. H. C. King, Jr.; Mrs. Williams and children; Miss Eunice Hardin; Mr. and Mrs. John Goode; Mr. Bob Goode and family; Misses Susan and Annie Mae Millwood; Mr. and Mrs. Willie Goode and children; Mr. W. R. Johnson and daughter; Mr. and Mrs. Martin Beheler, Mr. and Mrs. Theodore Johnson, Mrs. D. B. Beheler; Mr. and Mrs. Carl Sisk; Mr. Pink Hollifield; Messrs Wilbert Kiser, Fred Hardin, Wendell Johnson and Charles

Fed Fifteen Cows For \$1.00 A Day

By the use of temporary pasture, R. F. Shaw of Greensboro, route 5, fed 15 cows through the summer months at a cost of less than \$1.00 a day.

"About May first," says E. C. Blair, extension agronomist at State college, "Mr. Shaw began pasturing a 20-acre field which had been planted to a mixture of red clover, lespedeza, orchard grass and Red Top. This had been sown in 1928. This field kept the 15 cows in full milk flow all through the past dry summer with the addition of less than \$1.00 worth of grain concentrates daily. The field also maintained three dry cows and several calves in excellent condition."

Early in September, when the lespedeza and other plants began to toughen, Mr. Shaw had another field ready for them. This was planted in the same mixture as the first with the exception that the land was seeded one year later in 1929. During the first part of this year, 1930, the second field had produced 2,400 pounds of good hay per acre. Meanwhile, Mr. Shaw had planted another large field to the same seed mixture early in March of this year. He told Mr. Blair that this latter pasture would be ready for hay and grazing in 1931 and 1932.

Mr. Blair says since the general rains began falling in September, the first field planted in 1928 is making rapid growth and the vegetable matter will be turned under this fall for soil improvement. Mr. Shaw plans to plant corn on the 20 acres next spring. The corn grown on the farm this year was planted on a field sown to the grass and clover mixture in 1927. After producing hay and pasture for two years, the sod was turned for the corn crop and with a fertilization of only 200 pounds of a 12-2-4 mixture, a yield of between 35 and 40 bushels of corn an acre will be received this fall, says Mr. Blair.

GOLDEN VALLEY

Bostic, R-3, Sept. 29.—Rev. Joe Melton filled his regular appointment at Golden Valley Methodist church Sunday with a good sermon.

The Quarterly Conference will be held at Golden Valley Methodist church Saturday, October 4th at 2:30 o'clock, with the elder Rev. A. B. Dennis, in charge. The public is invited.

Mr. Blaine Melton and family, of Glen Alpine, visited his brother Sunday afternoon, Mr. Eli Melton and family.

Mr. Roosevelt Hunt, of Boone, accompanied by Mr. Young spent the week-end with home folks.

Mr. Charles Self is spending this week with his sister, of Mt. Holly. Mr. and Mrs. Fred Houser spent Sunday with his parents, Mr. and Mrs. J. D. Houser.

Those visiting on Bolling Gap Highway Sunday were the following: Mr. and Mrs. Dan Melton and daughters Misses Nannie and Mary Melton, Pauline McCurry, Messrs. Ray Reep and Mack McCurry. The scenery is lovely and the visitors enjoyed their trip very much.

People are very busy picking cotton and gathering their crops. Misses Nannie and Mary Melton are said to be the champion cotton pickers of this community. Last week they picked not as regularly as they could have but in four days they picked 1433 pounds.

Highway No. 19 Is Being Inspected

Marion, Sept. 24.—The stretch of State highway No. 19 from here to the McDowell-Rutherford County line, which has been open to traffic for several days, is being inspected preparatory to being taken over by the State highway department. According to information received here from the office of the eighth highway district, the road will undoubtedly pass inspection and be accepted.

The new route runs down a valley along the trail of the Southern and the C. C. and O. railways, avoids the mountain over which the old route wanders, and almost cuts in half the driving time between Marion and Rutherfordton.

After the road bed has settled for about three months, an oil treatment will most likely be applied to the surface. Between now and that time the road will have to be dragged frequently in order to keep down all corrugation of the surface.

Fighting Again.

"I hear they're starting a new campaign against malaria." "Good heavens! What have the Malarials done now?"—Exchange.
