

FOREST CITY DEFEATED AT HENDERSONVILLE

Teams Battle on Almost Even Terms With Forest City Best in First Half.

(Hendersonville Times-News)

The Hendersonville Bearcats won their fourth straight game on Friday afternoon by defeating the Forest City high team 20 to 0, before a large crowd of enthusiastic fans.

The two teams battled on almost even terms, with Forest City having a little the best of the argument in the first half. The visitors made three first downs in the first two periods to none for the Bearcats and almost scored a touchdown just before the half ended.

A fumble gave Forest City the ball on Hendersonville's 20-yard line and a nicely executed forward pass put the ball on the two-foot line. Here the Cats braced and held the visitors within an inch for three downs and the whistle sounded to end the first half.

Hendersonville rallied shortly after the second half got under way. Forest City kicked off to Cantrell who was downed on his 30-yard line. Two plays failed to gain 10 yards and Rick Orr got off a long punt to Calton, who was downed on his 20-yard line.

The visitors were unable to gain and kicked a long punt to Rick Orr who raced 65 yards for a touchdown. The run was the feature of the contest and brought the spectators to their feet. Orr took the kick on the west side of the field, skirted a group of Forest City players, cut back toward midfield, and again reversed his field to outdistance the last of the visitors blocking his path. He was aided by splendid interference in his dash. Elliott hit the line for the extra point.

The Cats' second touchdown came after a Forest City pass was intercepted on the 25-yard line. Two plays gained five yards and Elliott made a first down on the five-yard line with an off tackle buck. Wilkins got two, and Elliott went over his left tackle for the touchdown. Elliott again hit the line for the extra point.

Two touchdowns behind Forest City received and took to the air, with the result that a few minutes later Wilkins pulled down a pass and ran 33 yards behind good interference for the third score of the game. A pass from Orr to Edney was dropped and the extra point failed.

An unusual feature of the game was the fact that Hendersonville made only two first downs during the game, while Forest City made a total of seven.

The visitors started a drive in the last quarter which gained 25 yards, but the Cats braced and took

the ball one minute before the game ended.

The Hendersonville line played superb football and in stopping the Forest City offense for three downs on the two-foot line, showed much ability. The work of Greet and McCarron at tackle that they have plenty of fight was outstanding, but Big Cantrell at guard was outstanding in the line. He had a habit of breaking through and stopping plays before they were hardly started.

Brady was especially good at end for the Cats, while Edney on the other flank played a dependable game. The Cat backfield had a little difficulty in getting together and several fumbles were chalked against them.

The defensive play of Ford, the visiting fullback was a high light of the game, while Matheny at tackle played a smashing game.

The line-ups:

REPLACING OLD DAIRY STOCK GOOD BUSINESS

Pays Farmer To Give Care To Producing Calves.

The cheapest improvement in a dairy herd is made by replacing old or poor cows with heifers bred from the best cows of the herd, using a purebred bull from a high-producing dam. This reasoning is logical, yet many farmers pay little attention to which calves are saved for future milk cows.

Often when the best calves are retained to make up the future herd the calves are stunted in their early growth by poor feed. With proper supplements heifers do just as well on skim milk as on whole milk, after two or three weeks of age, and they can be raised with very little skim milk if the whole milk is desired for other purposes.

The old standard feeds for calves are ground corn, ground oats, wheat bran, and linseed meal. An excellent grain mixture for calves can be made of 200 pounds of ground corn, hominy, or barley; 200 pounds of ground oats, 200 pounds of wheat bran, and 100 pounds of linseed meal. This should be fed with skim milk or with a gruel made up of 100 pounds of hominy meal, 100 pounds of Red Dog flour, 100 pounds of soluble blood flour, and 100 pounds of linseed meal.

If they is fed the protein concentrate should be increased, and the grain mixture should be 300 pounds of ground corn, 300 pounds of wheat middlings, and 400 pounds of linseed meal.

Calves should be given all the good hay they will eat, preferably alfalfa or clover, after the second week; they may be fed small quantities of silage after two months of age, if carefully watched. All changes in feeding should be made slowly, taking about 10 days to change from whole milk to skim milk or whey at about three weeks of age.

Success with calves, when they are taken away from the cows, depends largely on replacing the protein which is lost from the ration when the milk is dropped.

Registration Books Close Saturday

Registration books will close Saturday night. All Democratic voters, who have not previously registered to vote in the primary or general election are urged to register in order that they may vote November 4. This will be the last chance. If you registered to vote in the primary, and have not removed from the precinct or township it will not be necessary to register again. If any member of your family has not registered, please see to it that they register at once, and vote.

COUNTY CLUB MEETS FRIDAY

Farm Progress Will be Featured at October Meeting in Rutherfordton.

Rutherfordton, Oct. 20.—The October meeting of the Rutherford County Club will be held here Friday at one o'clock in Sander's Cafe adjoining the Union Trust Co.

Discussion will center around the trip made to the Coker farms, at Hartsville, S. C., last Thursday, when a number of Rutherford county farmers made a trip there, and spent some time studying the methods of farming employed on the Coker farms.

Five minute talks will be made by A. B. Bushong, teacher of vocational agriculture in the Ellenboro school; D. H. Sutton, teacher of vocational agriculture in the Cool Springs high school; R. M. Morris, teacher of vocational agriculture in the Central high school, Rutherfordton; H. W. Bingham, teacher of vocational agriculture in the Harris school; Prof. Clyde A. Erwin and county farm agent F. E. Patton. These six speakers, who accompanied the motorcade, will speak five minutes each, giving their impression of the farming methods used on the Coker farms, and will make certain recommendations as to methods that should be adopted in this county.

The County Club is not an exclusive organization, but welcomes into its membership anyone desiring to co-operate and further the commercial, social, agricultural, civic and moral welfare of the county. An invitation is especially extended to every farmer of the county to attend the meeting next Friday.

COUNTY MERGERS ARE DISCUSSED

Consolidation Plan Suggested—Plan Calls for Merger of Rutherford and Polk.

Raleigh, Oct. 20.—Sentiment toward consolidating several North Carolina counties, two small, a large and small, or three small counties, for a reduction to 70 or 75 counties in the state, has come to the point that some of the state officials have been asked to work out suggested combinations, as suitable according to kinds and interests of people, lack of natural barriers such as mountain ranges or sounds and rivers, locations of county seats and other factors.

Excellent roads and automobiles, except in isolated cases, have brought the people closer together, so even with suggested combinations no citizen would be more than two hours from his county seat. One official, not wishing his name announced, because of objection to the plan from counties or seats that will or might lose their identity, has worked out a set of combinations and given probable county seats, along with populations, property valuations and school populations of the proposed combinations. His plan follows:

Mountain area: Cherokee and Clay, Murphy as county seat; Macon and Jackson, Sylva as seat; Graham and Swain, Bryson as seat; Henderson and Transylvania, Hendersonville as seat; Rutherford and Polk, Rutherfordton as seat; Mitchell and Yancey, Burnsville as seat; Alleghany and Ashe, Jefferson as seat.

Piedmont section: Iredell and Alexander, Statesville as seat; Sur-

ry and Yadkin, Dobson as seat; Forsyth and Stokes Winston-Salem as seat; Orange and Alamance, Burlington as seat; Caswell and Person, Roxboro as seat.

Central section: Scotland and Hoke, Laurinburg as seat; Moore and Lee, Carthage as seat; Wilson and Green, Wilson as seat; Nash and Edgecombe, Rocky Mount as seat; Vance and Warren, Henderson as seat; Halifax and Northampton, Weldon as seat.

Coastal area: Currituck, Camden and Pasquotank, Elizabeth City as seat; Gates, Perquimans and Chowan, Edenton as seat; Hertford and Bertie, Ahoskie, or Aulander as seat; Martin and Pitt, Greenville as seat; Washington and Tyrrell, Plymouth as seat; Craven and Pamlico, New Bern as seat; Lenoir and Jones, Kinston as seat; New Hanover and Brunswick, Wilmington as seat.

This plan would leave 72 counties for the state, 46 of the present counties remaining undisturbed, and 54 combined with one or more others to form 26 new counties.

Any such plan would be expected to meet with strenuous opposition from the citizens of the counties to be absorbed.

Have You Selected Your Trustees?

WE are of the sincere opinion that your estate cannot be administered so carefully, so efficiently, or so dependably by a private individual as by the trust department of a stable bank.

LET US DESCRIBE OUR TRUST PLAN

UNION TRUST CO.

"IN UNION THERE IS STRENGTH"

HAS THE LAXATIVE IN YOUR HOME A DOCTOR'S APPROVAL?

Some things people do to help the bowels whenever any bad breath, feverishness, biliousness, or a lack of appetite warn of constipation, really weaken these organs. Only a doctor knows what will cleanse the system without harm. That is why the laxative in your home should have the approval of a family doctor.

The wonderful product, known to millions as Dr. Caldwell's Syrup Pepsin is a family doctor's prescription for sluggish bowels. It never varies from the original prescription which Dr. Caldwell wrote thousands of times in many years of practice, and proved safe and reliable for men, women and children. It is made from herbs and other pure ingredients, so it is pleasant-tasting, and can form no habit. You can buy this popular laxative from all drugstores.
