## SPINDALE VOTERS HEAR ZEB WEAVER

### Democratic Candidate for Congress Vigorously Attacks Tariff, Farm Board and "Hoover Prosperity."

Spindale, Oct. 22.—Hon. Zebulon Weaver, Democratic candidate for Congress in the Tenth district, addressed the voters here Monday evening in the Spindale House. Mr. Weaver was presented by Mr. J. H. Hill.

In his opening remarks Mr. Weaver spoke of the high principles of the Democratic party, and asserted that the party was the party of the common man, and the party for the working man. Stating that parties may be judged by their records, he compared the administrations of Vance, Aycock, Glenn and others with the administration of Russell. During the past ten years North Carolina has spent \$165,000,000 on the roads of the state without a hint of fraud or graft, a record almost without parallel, said Mr. Weaver.

The speaker attacked in vigorous style, the Smoot-Hawley tariff bill, and profusely illustrated his points, time after time, by quoting prices under the old and under the new tariff laws; and giving figures on the decrease of imports and exports. He gave, as an example, the six cents increase tariff on cement. The United States will pay annually, under the Smoot-Hawley tariff, over \$60,000,000 on cement for roads and streets alone, and the tariff will increase the cost of road building approximately \$1,000 per mile.

Mr. Weaver also quoted figures to show that the retaliatory tariff laws enacted by other nations were killing United States trade abroad. During the first five months of the operation of the Smoot-Hawley tariff bill, exports have fallen off at the rate of \$1,000,000,250 per year. He scored the farm relief board's activities and asserted that the Republican party had played itself up as the party of prosperity, and it was up to the party to make good; or else give up the reins of the Government two years hence.

## INTERNATIONAL ROAD CONGRESS DELEGATES HERE

### Representatives From 35 Foreign Nations Stop in Forest City Thursday Afternoon For Short Reception.

Eighty-eight highway engineers and administrators from foreign countries, representing thirty-five nations, and fifty staff members, stopped in Forest City Thursday afternoon for a fifteen minute entertainment period, sponsored by the city and civic clubs of the town. The trip of inspection of the highways of the southeastern United States carried the delegates through five states and to the southern tip of Florida. The trip was begun in Washington, D. C., October 13, and the party entertained in Forest City Thursday was composed in part of the delegates to the Sixth International Road Congress which was held in Washington the previous week.

Several hundred people turned out Thursday afternoon, about four o'clock, to welcome the delegation to Forest City. Five large busses, accompanied by Capt. Chas. D. Farmer, Lieutenant Sam Beck, of the State Highway patrol and eight state patrolmen, parked in the center of town. Chief C. R. Price, Sergeant Austin Price and Mr. Martin Green directed traffic off the main street, on which the reception was held.

A short reception was held for the members of the motorcade, after which Mayor V. T. Davis presented Attorney C. O. Ridings, who gave a brief address of welcome. Mrs. A. M. Glickman assembled a large number of local school children, who sang "America" and one stanza of "The Star Spangled Banner." Cigars, cigarettes and Coca-Cola was served as refreshments to the visitors by a number of young ladies. The Coca-Colas were donated by Mr. F. I. Barber.

Never in the history of Forest City has there been welcomed, at one time, as many distinguished men and foreigners as were present Thursday. Represented in the gathering were the United States Bureau of Public Roads, the United States Department of Commerce, various state highway administrations southwest of Washington, D. C., the Asheville Chamber of Commerce and several civic clubs, and scores of learned students and good roads enthusiasts from all of the hemispheres.

It was a treat, the like of which local residents seldom see. Thirty-five different languages, including our own American tongue, were being jabbered on the city square at the same time. It was a confusing scene, which an awe-struck public gazed on in wonder and amusement.

A tall and intelligent fellow of Oriental nativity mingled in the crowd and was the special target for small boys, who gazed at him in amazement. A small Japanese, with beaming face and fancy-free tongue, talked with everybody on four sides of him and seemed to enjoy his visit tremendously. Three others, of doubtful nationality gesticulated wildly over the reception which they received.

The local citizenry had been expecting the delegation all afternoon, and by the time the first siren sounded on the outskirts of the city scores of persons began moving toward the city square. And the longer the foreigners stayed the larger the crowd grew.

By the time Capt. Farmer of the State highway patrol, who was in charge of the passage over the State's highways, called his men into line an unusually large crowd had gathered.

The delegation came from Asheville, having taken luncheon at Chimney Rock. From Forest City they went to Charlotte, where they were honored Thursday evening by the civic clubs of that city. Friday morning they left Charlotte for Miami, Fla., where the motorcade was disbanded.

The president introduced Dr. J. M. Haymore, as speaker of the morning session. Dr. Haymore's great heart searching and soul lifting message from 2-Tim. 4:1-2, was a blessing to all present. Dr. Haymore urged the ministers to 'Preach the Word' be instant in season, out of season; reprove, rebuke, exhort, with all long suffering.
