MR. FRANCIS McDANIEL, AGED 73, PASSES

Rutherfordton, R-4, Aug. 13.—Mr. Francis McDaniel, age 73, died at his home on Cane Creek Saturday afternoon, August 8, after an extended illness and was buried Sunday at noon at Brittain Presbyterian church. Rev. R. T. Baker, pastor was in charge, assisted by Rev. A. W. Dick. A large crowd attended. Interment followed in the cemetery.

Deceased is survived by his widow, Mrs. Frances Drucilla McDaniel. He was a member of Cane Creek Baptist church and was a well known citizen.

GARDNER SPEAKS AT BEAM FAMILY REUNION

Ellenboro, R-3, Aug. 17.—The Beam clan met at New Prospect church in Cleveland county Thursday for their annual reunion. An immense crowd was present. People began to gather early in the morning to renew old associations, recount reminiscent days of old, sing and play instrumental music characteristic in the good old fashioned way.

Featuring the day's program was the address of Governor Gardner. In his usual clear and interesting manner he told of his boyhood days spent at New Prospect, when a bashful, care-free boy and barefoot, he attended school, Sunday school and church at New Prospect.

Further, he said he was happy to be "one of them" for the day and mingle with his old associates.

One other address was that of John G. Carpenter, solicitor from Gaston county, who spoke in an interesting way on the "problems of the day."

NEGRO WOMAN HIT BY AUTO DIES

Tragedy Occurs at Ellenboro—Walks in Front of Car En Route to Shelby.

Ellenboro, Aug. 17.—Jeanette Watts, 50-odd years of age, colored woman of Belmont, was fatally injured just west of Ellenboro around 9:30 Thursday morning when she was hit by an automobile driven by young J. P. Smith, of Columbus, Georgia, and occupied by Smith and Henry Lee Weathers, son of Mr. and Mrs. Lee B. Weathers of Shelby.

According to witnesses the driver of the Smith car was exonerated of blame as it was said that the negro ran from behind another car in front of the approaching automobile. The Smith car was traveling about 30 or 35 miles per hour.

Young Smith and Weathers had spent the night with relatives at Forest City and were en route to Shelby. Several autos filled with colored people were going from Belmont to Hendersonville on a picnic. The car in which the woman was riding stopped on the right side of the highway going west. The woman, it is said, got out and walked around from behind the car in front of the Smith car, the driver of which did not see her until she stepped into the road with idea of crossing to enter woods on the other side. She was hit by the left fender of the Smith car, which was headed east. She was picked up and started to the hospital but died before reaching Forest City.

Young Smith, who is on a visit to Shelby, is a son of Mr. and Mrs. Dixon Smith and a cousin of young Weathers.

MR. LAWRENCE SISK AND MISS JENNIE SEASE WED

Friends of Mr. Lawrence Sisk and Miss Jennie Belle Sease, of Clearwater, S. C., will be surprised to learn of their marriage a few days ago.

Mrs. Sisk is the daughter of J. L. Sease and is very popular among the younger set of Clearwater. Mr. Sisk who made his home in Forest City, has been in Clearwater, S. C., for the past year. They will make their home in Clearwater, S. C.

Poultry Club Members To Get Purebred Males

The use of better males to head up the farm flocks is the outstanding need of the poultry industry in North Carolina. To offset this need, the Poultry Department at State college will distribute at cost, thru the extension service, pedigreed males of known performance to 4-H club members who are conducting poultry projects.

"To be eligible to secure these birds," says Professor R. S. Dearstyne, head of the Poultry Department, "club members must have kept records on their flocks for at least one year and must agree to keep records for two years after the male is issued. The price of these birds will be figured from actual cost to the Department."

The success of the poultry industry lies in the breeding and too often this is governed by selection according to appearance with little stress laid on performance, states Mr. Dearstyne. Such selection is often wrong as a cockerel from a 100 egg bird may present a better appearance than one from a bird that has produced 200 eggs. The worth of a male bird is reflected in the performance of his daughters and this fact carries through the entire progeny.

"While the introduction of pedigreed males into the flock is a step in the right direction," says Mr. Dearstyne, "there are other factors to be considered in order to bring out the best results."

One of the most important of these factors is the selection of birds to which the male is to be mated and Mr. Dearstyne recommends that breeding birds be selected for vigor, type, and performance. Vigorous, healthy birds will as a rule be heavy producers. The type should conform to the culling standards for the breed and the performance records should be kept through trapnesting or leg-banding. By careful selection of pedigreed males, club members can materially raise the state average in egg production, says Mr. Dearstyne.

MR. D. F. BEACHBOARD TO REBUILD STORE

Mr. D. F. Beachboard, whose store near Caroleen burned some time ago, told The Courier Monday morning that he expected to begin the work of rebuilding his store about Sept. 1st, and hoped to open again just as soon as the work of constructing his new store can be finished.

This announcement will be hailed with delight by Mr. Beachboard's host of friends in that section and elsewhere. Having been in the merchandising business there for the past 28 years, he has become an institution, and by fair dealing, combined with his fine and generous personality, has won friends by the score.

SUNDAY SCHOOL PICNIC

The Fidelis class, of Florence church, motored to Rainbow Lake Saturday evening and enjoyed a most delightful picnic and watermelon slicing. Those making the trip were Misses Elsie Proctor, Vergie Penson, Annie Bell and Bessie White, Gussie Webb, Lucy Penson, Mr. and Mrs. David Garrett, Roscoe Phillips, C. L. Proctor, Albert Harrill, Ruth Proctor, Etta Coffee, Clara Sue Shytles, Robert McDonald and Grady Guffey.

WENDELL EAVES HONORED.

Mr. R. Wendell Eaves, former principal of Spindale school, has been elected principal of the Jefferson High school in Rosemont, a suburb of Washington, D. C., on the Virginia side. It is a school of eight hundred students.

This summer Mr. Eaves is directing a Fresh Air Camp at Benson, Md., which is an underprivileged camp for children of Baltimore. Four hundred children can attend the camp at one time, or about 2500 will attend it this summer. Mr. Eaves is another Rutherford county boy who is making good in the outside world.

Learn what a difference six cylinders make

Step out of any other low-priced car into a Chevrolet, and learn the difference six cylinders make.

"Idle" the engine—and the whole car remains steady. Open the throttle—the power flows evenly. Accelerate—throttle down—go fifteen or fifty—and this smoothness stays with you whatever you do. It's actually built into the motor—and objectionable vibration never even starts!

Yet smoothness is only one of many six-cylinder advantages. There's greater quietness, because noisy vibration is gone. There's greater comfort, because built-in smoothness doesn't tire you out. There's greater flexibility, because the power-impulses of a six overlap. And a six is much easier to handle!

If you raise the hood of a Chevrolet and watch the engine running so smoothly, you'll realize that six cylinders also mean greater dependability.

And remember when you do—that no other car is so economical to operate as the Chevrolet Six.
