#### Miss Coble in Auto Accident.

Miss Roberta Coble, who is in Lumberton visiting her sister, Mrs. J. S. McNeill, had the ill luck Friday to be in an automobile party that came to grief through an accident. Regarding this the Lumberton correspondent in The Wilmington Star of Sunday says:

"An automobile accident occurred about six and a half miles north of here on the Fayetteville road yesterday afternoon, but no one was seriously hurt. In the car were Miss Ora Long of Monroe; Miss Roberta Coble of Laurinburg, and Misses Louise Townsend and Mildred Williams and Mr. Furman Williams of Lumberton. The car was driven by Miss Long. One of the wheels ran into a hole in the road, causing it to blow up and turn the car over on its side. It was damaged to the extent of \$15 or \$20. Mr. Furman Biggs happened to be passing that way and brought the party back to town, more frightened than hurt."

#### White Way at McColl.

Our progressive Southern neighbor, McColl, S. C., has installed a white way. The town held a celebration, with appropriate ceremonies, on Tuesday night of last week, at which time the current was turned on. Miss Mary Parker, after a heated voting contest, was declared queen for the occasion, and Miss Mary Gilchrist Tatum maid of honor. The occasion was enlivened by music furnished by a brass band.

Premature explosion of a 4,800-pound dynamite charge on the Panama Canal work July 20 killed five laborers.

#### Government Experts Here Last Week.

E. A. McGregor and F. L. McDonough, government experts from Batesburg, S. C., came to Laurinburg the past week for the purpose of demonstrating the most improved methods of spraying for the red spider.

These gentlemen came in response to a request from Mr. H. W. Malloy, whose farm at Stewartsville has become infested with this destructive pest.

The spraying outfit, one barrel capacity, was used on a dismantled hay rake on which a platform had been built. The wheels straddled two cotton rows, and it was drawn by one mule.

Quite a number of interested planters watched the demonstration. Examination showed that all the leaves were hit by the spray and the work progressed at the rate of about one-half acre per hour.

The cost of material and time to spray costs about \$2 per acre.

The demonstration and the consequent use of the spraying solution has resulted in a great deal of good.

#### Mills Pay Dividend.

The stockholders of the Waverly, Dickson and Scotland Cotton Mills will soon be presented with dividend checks of ten per cent.

This was determined and ordered at the stockholders meeting held at the court house Monday morning. Besides the amount to be paid in dividends, a neat amount was added to the surplus fund.

So well pleased were they with the management of the affairs of the mills, the stockholders by unanimous vote expressed their appreciation in a resolution of thanks to the officers of the mills, and further showed their appreciation by re-electing them for another year.

These mills are valuable assets to the commercial life of Laurinburg, and it is especially pleasing to note the good success they are having.

#### Ate Poisoned Cantaloupe.

A. B. Hardin, Indian, who lives about eight miles from town in Saddle Tree township, arrived in town Saturday morning, by running his mule, just in time to save his life. He ate some cantaloupe given him by a friend Saturday morning just before leaving home, and it is thought that the man who raised the cantaloupe had put strychnine in it to get somebody who was taking his "lopes" without his consent, and through mistake had pulled the cantaloupe and unintentionally given it to Hardin. Hardin was in a terrible fix when he arrived in town and Dr. Pope, who rendered medical aid, said he would have been a dead man in ten minutes had he not received medical attention. Hardin said he noticed a black decayed place on the cantaloupe but thought it was only a rotten place and proceeded to fill up on it.—Lumberton Robesonian.
