THE STATE UNIVERSITY.

Now Enjoying the best Season in its History—Recent Valuable Gifts—How it Helps Poor Boys.

The University Record for October is just out. Of especial interest are statistics as to the students and information in regard to University life.

On the 18th of October, one month from the first day of the session, the enrollment was 480 in the academic, law, medical and pharmacy departments. This is the largest enrollment ever reached during the first month of any term, and with the summer school enrollment, omitting duplicates, will carry the total up to 609.

The following denominations are represented: Methodist, Episcopal, Baptist, Presbyterian, Lutheran, Disciples, Christians, Disciples of Christ, Moravians, Methodist Protestants, Dutch Reformed and Jew. The new men of this year came from sixty preparatory schools and thirteen colleges and State Universities. The professions of the parents of the students enrolled are as follows:

Farmers 35 per cent, Lawyers 7 per cent, Merchants 14 per cent, Ministers 5 per cent, Teachers 5 per cent, Manufacturers 6 per cent, others 20 per cent.

The following trustees have made gifts to the University: General Julian S. Carr gives a handsome dormitory building, now in the course of erection, to cost \$18,000.00.

Mr. Henry Weil of Goldsboro gives the library \$1,000.00.

Mr. James Sprunt provides for the publication of the Monographs on North Carolina and United States History.

Mr. Jas. B. Lloyd of Tarboro, \$10.00 prize for the best thesis on "The Government Ownership of Roads."

Old students will read with pleasure about many improvements in the campus and village, and also of a well perfected plan for the organization of the Alumni.

In the chemical department a new course in dyeing and bleaching has been established for the study of textile fibres, their preparation for bleaching, the colors and dye stuffs, methods of dyeing and the sizing and finishing of cloth; thus giving the principles and theories of this side of the mill industry, and making the practice intelligible.

The University has more actual students than any Southern University North of Texas and it is reaching the whole people as it has never done before. During the past two years it has loaned with security and interest nearly six thousand dollars from the Deems Fund, thereby aiding many needy students. Over one third of the students are the sons of farmers, which shows that it is the school of the farmers as befits an agricultural State. Two thirds of the number of students are at the University as the result of some sacrifice. Nearly one third are supporting themselves by money which they have earned or borrowed. So strong is the spirit of self help that seventy-nine students are supporting themselves by labor while in college, earning this half term about three thousand dollars. It is no exaggeration to say that the University by its loan fund, scholarships and opportunity for labor makes it possible for any worthy boy, however poor, to obtain in North Carolina as good an education as rich boys are paying elsewhere.

Chamberlain's Pain Balm cures Others. Why Not You.

My wife has been using Chamberlain's Pain Balm, with good results for a lame shoulder that had pained her continually for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with the best of satisfaction. She has used only one bottle and her shoulder is almost well. Adolph L. FROM WOODLAND.

Work of Needlework Guild—Helping the Orphans—Returned from Hospital Improved.

Mr. Henry Peele is visiting his sisters, Mesdames Sallie J. Copeland Sr. and Margaret Hare.

Mr. J. H. Blanchard returned home last Friday from the Johns Hopkins Hospital at Baltimore very much improved. His many friends are very glad of his recovery as they had almost given up the hope of his getting well.

Sunday evening as we were going home we found Esquire G. M. Powell and Judge R. I. Beaulieu by the roadside in deep conversation. Whether it was the meteoric showers or something else they were discussing we cannot say; but by intense earnestness manifested by both a wedding must have been the topic as nothing less could so much interest those two gallant gentlemen.

On Wednesday the Needlework Guild of America met at the home of Mrs. Sallie J. Copeland Jr., with Mrs. Bettie Peele, President Mrs. Peele's with her Directors in different parts of the county had collected two hundred and ten warm garments which were distributed equally between the orphanages at Oxford, High Point, and Thomasville excepting those that had been requested to be distributed here at home.

On last Tuesday morning the Kings Daughters and Sons of Woodland with some of their friends met at the hospitable home of "Uncle" Jesse Parker with a basket of dinner, their object being to quilt a quilt that they had pieced by them for one of the orphanages. To say the day was enjoyed by all does not begin to express their feelings. Uncle Jesse and his good wife with Miss Loula and John did every thing in their power for our enjoyment. With the barbecue furnished by Uncle Jesse and the baskets brought by the company, we had a feast fit for a king.
