

SEABOARD LOCALS.

Death of Mrs. Yates—High School Occupying New Building—General News in Brief.

Large quantities of pork was killed in this vicinity the past week and we hear of many others who will have their hog killings this week.

Mrs. Maggie Ellis of Port Norfolk, Va., arrived Saturday noon on a visit to her parents, Mr. and Mrs. J. E. Cuthrell.

Mrs. B. F. Harris, who has been confined to her bed the past week with a stubborn case of neuralgia, coupled with a deep cold, is slowly improving at her home here.

Prof. J. R. Ware returned Saturday afternoon from Greenville, where he had been attending a meeting of teachers from different portions of the State. He reports a very pleasant and profitable session. Notwithstanding the unprecedented cold weather Greenville opened wide her doors and gave the teachers an old fashioned Southern welcome.

Rev. E. N. Harrison was on hand Sunday prepared to fill his regular monthly appointment at the M. E. church. Only a very few came out to hear him preach so he returned to Garysburg on No. 41 and did not attempt to reach his Concord church in the afternoon. He acted very wisely as the ground was so sleek with sleet, country travel was dangerous. Our people were not surprised at Bro. Harrison's coming as he never fails to meet his appointments unless providentially prevented.

Mr. J. T. Maddrey has been suffering very much, with rheumatism, for the past two weeks. His whole left side is attacked and is almost helpless in that side.

Mrs. J. D. Pope, who was stricken with paralysis, in entire right side, more than a week ago, is improving very slowly, much to the regret of friends.

We cannot report any improvement in the weather, except it is not quite so cold as last week. Snow covers the ground to a depth of several inches. It has been many years since this section has been visited by such continuous, severe weather. All the pumps in town have been out of commission, fortunately there are many open wells here and water has been easy to obtain.

Mrs. J. D. Yates died at her home in the country, near here, Sunday night. Her death was not unexpected as she had been in poor health for more than a year. She will be buried tomorrow (Tuesday) in the family cemetery. She is survived by an aged husband, four grown daughters

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, brick-dust or sediment in the urine, head ache, back ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. Swamp-Root corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The rapid and immediate effect of Swamp-Root, the great kidney remedy is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince anyone.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

and two sons who have our sincere sympathy in their separation from a christian wife and mother.

Our High School is getting on very nicely in their new building. They finished moving in last week. It is impossible to decide who is the proudest of their new quarters, Prof. Ware or his pupils. The attendance is not as large as it would be if the weather was not so bad. The auditorium is comfortably seated with modern opera chairs. The reading room will next be fitted up with nice chairs and a large table. Much is yet to be supplied, but as every thing comes to those who labor and wait, we feel confident all our school needs will be met in due time. If every patron and friend of the school was as enthusiastic as Prof. Ware there would be a full treasury all the time until the many needs were supplied. Just here will say that many who subscribed to the Auditorium Seat Fund have either forgotten or have been too cold to redeem their pledges. The chairs are here and in place, were bought for cash and any who have subscribed and also those who have been planning to give something later, could not do a more helpful thing this cold weather than pay these amounts at once.
