We grieve to have to report the sad death of Mr. Ned Picard which occurred Thursday, Sept. 25th. His remains were interred in the Episcopal church yard Friday afternoon. He was a young man of sterling qualities and will be greatly missed from among us. We extend to the family our most heartfelt sympathies.

The Jackson High School has completed three weeks of the fall term with an enrollment of 108; average attendance 106. Every one is very much interested in the school and we predict a prosperous year.

Mr. P. Stephenson of Severn was a caller in town Sunday. Nearly five thousand people were in town Friday, Sept. 26, as it was "Show day."

It is seldom that the people of Jackson are so fortunate as to have with them such a number of progressive men as were present last Wednesday. It was a great day with our people. Interesting and instructive speeches were made by the following men:--Clarence E. Poe, of the Progressive Farmer; Mr. W. L. Spoons, who has charge of the good roads, and Drs. M. R. Stephenson and H. W. Lewis. The occasion was a Farmers Union meeting and we are sure that the farmers received much benefit and encouragement.

Mrs. Walter Garris is suffering an attack of chills. Those who were on the sick list last week are able to resume their duties.

One of the saddest misfortunes that, perhaps, this community has ever known of, occurred last Wednesday about three miles from town, when Mr. Ned Picard was completely enveloped in flames caused from the explosion of a can of gasoline oil suspended from the handlebars of his motorcycle. Had it not been for two colored men who happened along just after the explosion, Mr. Picard would doubtless have burned to death, for already he had given up all hopes of relief and had gone into the woods where his body was found, while his machine was left smoking in the road. The colored men moved him to Mr. H. J. Vaughan's where, owing to the illness of our faithful physician, Dr. Mitchell, Dr. Lewis was summoned and took the patient to his home in Jackson. His limbs were a mass of burns of the most horrible kind, still, he was conscious of his suffering and acknowledged the accident was due to his carelessness. It was with sadness that the news of his death at his home on Thursday, reached here and to the bereaved we can only offer our heartfelt sympathy.

Several farmers here sold their last year's cotton crop a few days ago for 13 1/2 cents per pound. A good many farmers and others availed themselves of the splendid opportunity of hearing Mr. Clarence Poe at Jackson last Wednesday. On the following day several went from here to Aulander to hear him. At Jackson Mr. Poe spoke on cooperation among farmers, and for an hour and a half he held the attention of his large audience in a remarkable manner. At Aulander his address on Education, we understand, was equally as good.

The Seaboard Air Line railroad company is making some needed improvements at the station here.

Mr. Hosea Harrington died at Greenville last Saturday morning. He had gone to see his brother. The body was brought here Sunday morning and the funeral service was conducted by Hon. C. W. Mitchell at the home of a sister of the deceased.

Mr. Harrington was 28 years of age and was a brother of Messrs. J. Lawrence and John L. Harrington of Aulander and Lewis-ton respectively.

By a vote of 140 to 60 last Monday, the Bond Issue and Special Tax for Graded school was carried, and Aulander and vicinity will now begin to prepare for suitable building and facilities for carrying on the school work. This issue carries with it, a \$12,500 bond issue for this purpose, and the special tax will be 45 cents on the 100 and \$1.35 poll. The territory embraces about 2 1/2 or 3 miles, being somewhat longer east and west than north and south. A suitable ground for the erection of a new building will be next provided and the old school site sold, the proceeds going to the new building. It is proposed that a \$10,000 building be erected, though details will later be arranged. The community is to be congratulated on this election, the majority being larger than was expected.
