The Parent-Teacher Association put on a rather unique supper a few nights ago which has attracted no little comment. Twelve tables were arranged in the new dormitory with a chairman appointed by the president of the Association to be responsible for the decoration of each table as well as the general supervision of that table. There was one table for each month in the year and the decorations were in keeping with the seasons. Those having birthdays in January were supposed to eat at the January table, those who had birthdays in February were to eat at the February table and so on through the year. A delightful supper was served by the Association, the proceeds from which were turned into the treasury in the amount of about \$75.00. It was a most delightful evening profitably spent. A vote was taken to ascertain who had the most beautifully decorated table and Mrs. S. N. Blanchard was voted first place, Miss Aileen Autrey second place and Miss Gracett Frazier, third place.

Those who are regular readers of the TIMES have no doubt noticed there has been no George-Woodland News for the past few months. I would just like to say that it has been no fault of the Editor, but the lack of a correspondent from this place. On account of a very great deal of other work, your regular reporter had allowed it to drop. Within the past few days, however, a number of the leading citizens around Woodland have been to me and asked me to try to find time to send in a few news items from our community each week. I have agreed to do so, providing the people in the community will cooperate with me in reporting the things of interest to me.
