

ATTRACTIVE HOME GROUNDS

While driving through the country one is often impressed by the difference in appearance of yards and grounds, surrounding farm houses.

There is no excuse, in our territory, for unattractive home surroundings. Trees, shrubbery, and beautiful wild flowers can be had for the labor of taking them out of the hillsides and ravines and transplanting to the home grounds.

There are home demonstration agents and experts who will, for the asking, give directions and make a plan by which this planting may be done in order to produce the most pleasing effects. With very little expense ornamental shrubs, vines and flowers may be obtained from nurseries which may add something to the beauty not obtained by the native plants.

It is an easy matter to convert a bad, naked yard into a place of beauty and comfort and yet we see quite a number of those which are desolate and lonely and it is from these desolate, bare and lonely yards and homes that children leave for the city.

We urge our farmers who have not already attractive homes to begin this spring and plant something, most any kind of tree is attractive.—The Southern Planter.

DON'T CARE CITIZENS

It was a little thing. Simply the tearing up of a letter in small bits and throwing the paper down on Main street. We do not know who the young lady was. She was nice and trim looking in appearance. But as we walked up the street behind her and saw the careless act just mentioned, we wondered about her neatness. Throwing paper and especially in small bits on the street would be characteristic of a don't care person, and some how that is the impression we still have of the young lady. No one would appreciate having a lot of paper scattered about on their lawn or in their back yard. And yet our public thoroughfares and public back lots are too often a sight to behold. Too many don't care citizens, open their mail and discard it on the streets. It is a little thing. But it tells to the world something about those who do it.—Smithfield Herald.

Love levels all things—with the possible exception of the head.

**Bayer Aspirin
Proved Safe**

Take without Fear as Told in "Bayer" Package

Does not affect the Heart

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-five years for

- Colds Headache
- Neuritis Lumbago
- Toothache Rheumatism
- Neuralgia Pain, Pain

Each unbroken "Bayer" package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100.

Baptist Contributions To The United Program in 1925

In the year 1925, the West Chowan Association paid the most to the united program of any association in the State. The statement published in the Biblical Recorder shows that the West Chowan paid \$31,352.80, the Piedmont \$30,215.36, the Roanoke \$28,180.78, the Mount Zion \$26,608.21, these were the four largest contributors. In the West Chowan there are nine churches that paid over \$1000.00 each as follows: Ahoskie \$3,602.59, Cashie \$1,955.82, Aulander \$1,611.03, Lewiston \$1,483.44, Coleraine \$1,328.82, Buckhorne \$1,230.91, Winton \$1,125.87, Severn \$1,088.84, Seaboard \$1,041.23. When the amount contributed is divided by the membership it gives the per capita and in the association we find the following per capita: Two churches gave over \$6.00 per capita—Winton \$6.78, Jackson \$6.06. Two others over \$5.00—Ahoskie \$5.97 and Bethel \$5.37. Four others over \$4.00—Cashie \$4.82, Severn \$4.41, Aulander \$4.34, Seaboard \$4.32. There were four others that paid over \$3.00, eight more that paid over \$2.00 and 19 more that paid over \$1.00 and 19 that paid less than \$1.00 per capita.

In the recent love offering for the Foreign Mission debt the Association raised over \$2,750.00.

Honesty is an ingredient in the make-up of the man who pays his debts before indulging in luxuries.

Resolutions of Appreciation

The members of the Woman's Missionary Society of Ashley's Grove Baptist Church wish to express publicly their appreciation of Rev. H. G. Bryant, who has been our pastor for nearly five years and has now left us to become pastor at Kannapolis N. C.

It is with deep regret that we give him up but the Lord has called him into another field of service so we bow in submission to His will and pledge him our love, loyalty and prayers.

Therefore we submit the following resolutions:

1. That we express our gratitude for his fine Christian character, his fearless stand on all moral issues, his preaching of the plain gospel and his leadership for he was indeed a pastor.
2. That our church work has enjoyed a considerable growth in all phases during his pastorate, especially our B. Y. P. U. for his leadership has meant much to our young people.
3. That we realize the building of our several splendid new class rooms was due very largely to his faithfulness and untiring efforts.
4. That a copy of these resolutions be sent to our county paper, one to the family, and one be spread on the minutes of our society.

Mrs. Ada Joyner,
Mrs. Sallie Futrell,
Miss Annie Joyner,
Committee.

Piles Cured in 6 to 14 Days
Druggists refund money if PAZO OINTMENT fails to cure Itching, Blind, Bleeding or Protruding Piles. Instantly relieves Itching Piles, and you can get restful sleep after first application. 6c.

EFFICIENCY IN FARMING

Those who succeed in any business or profession must make efficiency their watchword and in no business or profession is there a greater demand for efficiency than in farming.

When we get down to plain facts one of the greatest troubles with American farming today is inefficient farmers.

There is scant opportunity for success for inefficiency in any business, more especially in farming. Inefficient farmers will not succeed or prosper generally because they will wear out in five years a machine that should last twenty-five years; they will keep boarder cows and boarder hens and will let their swine and

poultry become infested with vermin and intestinal parasites; they don't treat their seed for fungous diseases, neither do they test them before they plant them.

We look around in every community and find efficient farmers who make good crops, or fairly good crops, whether the season is wet or dry, they get a fairly good price, at least the top of the market, for everything they have to sell because it is first class, it is standardized and it is put on the market in condition to attract attention. These farmers are always up with their work; their tools are in good condition; they are properly housed and protected from the weather; repairs are always on hand, and consequently, instead

of wearing out machinery in a few years, most of it lasts a lifetime.

These farmers read the best books and magazines; they attend the farmers' meetings; they seek advice and help from all the available experts; in other words, they leave no stone unturned to become efficient. They represent efficiency and the future of farming in this country holds no hope for any except the efficient farmers.—The Southern Planter.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.
