

PROPOSED COUNTY ROAD LAW

1. Create a Road Commission of five members, not more than one to be a resident, at the time of his appointment, of the same township. These to be appointed first, by the legislature and to serve for a period of one to five years. Their successors to be appointed one annually by the Board of County Commissioners to serve for a term of five years.

2. Require that a general survey and map of all existing county roads be made and give the Commission authority to abandon any existing roads, or to convert them into cartways. Also authority to change existing roads or add any roads, emphasizing that the general plan and purpose should be to build up a road system that will co-ordinate with the State highways and serve expressly the community center created by the consolidation of the school district.

3. The new commission to take over the maintenance of all county roads and divide them into convenient districts with an all time patrolman for each district, and an all time county superintendent of roads.

4. A county wide tax levy for maintenance purposes of, not exceeding \$.40 on the \$100 valuation, and all township or district maintenance taxes to be abolished.

5. Authority to the Road Commission to borrow money on short time notes, not exceeding three years, and not in excess of such an amount as can be retired from the maintenance tax levies here provided for during that period.

6. That existing township or district bonds shall be provided for, for the present, by a special tax levy in those townships or districts for which the bonds were issued but authorize the County Commissioners, from time to time, upon the request of the County Highway Commission, to issue county bonds to provide construction funds for such roads as the County Highway Commission have adjudged to be most important at that time. This authority, however, to issue county bonds to be limited by a proviso that no county bonds for road purposes shall be issued until the County Commissioners first assume and provide for the payment of the outstanding township and district bonds.

Will Not Advertise

"Why don't you advertise?"
Town Storekeeper—"No siree. I did once and it pretty near ruined me."

"How was that?"
"Why people came in and bought dern near all the stuff I had."

Thought Malaria Still in System

Until Dodson's Liver Tone Drove Out Quarts of Sour Bile and Other Poisons

There are entire sections where everyone seems to think they have malaria. Others believe they never fully got the malarial poison out of their systems.

Arnold Whiteson says: "For years I took calomel for the aches, biliousness, headache, constipation and the deathly feeling associated with what we believed to be malaria."

Last year I heard about Dodson's Liver Tone and bought a bottle for a few cents. Man, man, what a Godsend. In the morning it drove out quarts of black, sour bile. I got back my appetite for food, braced right up and haven't had a sick spell since. Whenever I feel a little bilious or the stomach gets sour, one dose of Dodson's Liver Tone is all I need. It is surely a blessing."

Hundreds of others tell the same experience.

Take a spoonful of Dodson's Liver Tone tonight and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

FLOORS IMPORTANT TO HENS

Poultry houses may be built with or without floors so long as they are dry. Damp floors make damp litter, and dampness is fatal to both fowls and chicks. If the house is on dry sandy soil, a dirt floor is usually quite satisfactory, but as a rule it is more damp than board or cement floors. Dirt floors need to be scraped down to the clean soil and fresh gravel or sand put in once a year to keep them sanitary.

If board floors are used see that they are both tight and smooth so as to make them dry and easy to clean. Place them 8 or 10 inches from the ground if possible, to allow a circulation of air and in order that the space may not be a refuge for rats.

Cement floors, especially for large houses, are quite satisfactory, as they keep out rats, last much longer than board floors and are easy to clean.

The floor of every poultry house whether of dirt, boards, or cement, should be kept covered with a litter from 3 to 6 inches deep at all times. Oat, wheat, or rye straw makes the best litter, but if it can not be obtained, sawdust, chaff, dry leaves, or pine needles may be used. As soon as the litter becomes damp or badly soiled, take it out and replace with dry litter.—U. S. Department of Agriculture.

True Worth

Truth worth is in being, not seeming—

In doing each day that goes by
Some little good—not in dreaming

Of great things to do by and by.
For whatever men say in their blindness,

And spite of the fancies of Youth,
There's nothing so kindly as kindness,

And nothing so royal as truth.
—Anon.

AVOID SUMMER COLDS Keep Strong With SCOTT'S EMULSION

County Health Report

To the Honorable Board of County Commissioners of Northampton County:

I herewith submit report of the Health Department for the month of June, 1926

Life extension examinations 7

Tuberculous homes visited 3.
Diphtheria reported and visited 3.

Chickenpox reported and visited 1.

Typhoid fever reported and visited 1.

Tuberculosis reported 1.
Miles traveled 889.

W. E. FUTRELL, M. D.,
County Health Officer.

Word of Thanks

To my friends and neighbors who helped and assisted us during the sickness and death of our son Elbert, we thank you not in words only but in sincerity and humility. For your greater reward, we point you to the promises of the Heavenly Father who took him from us to be with Him.

To the great host who came to my rescue and worked out our crop, and helped us in various other ways, we too thank you, with equal measure, and point you to the promises of Him who put it in your hearts to assist one of the least of His.

W. A. PEELE AND FAMILY

R. A. SHAHEEN
JACKSON, NORTH CAROLINA

The Progressive Farmer, the South's greatest farm weekly, and The Roanoke-Chowan Times one year \$1.50.

The National Trade-Mark

Old silversmiths, in order to help people tell pure silver from cheaper imitations, marked the real thing "sterling."

In a like manner, manufacturers, who stand back of their wares, identify them with trade-marks that are your guarantee of quality. By advertising these trade-marks, they focus on their products the searchlight of attention.

Only good goods, fairly priced, can flourish in this light of publicity. For no merchandise and no business can thrive under the weight of public condemnation.

That is why a manufacturer, or a merchant, places the whole reputation of his business at stake every time he advertises. His goods must be as advertised.

So, in looking through this paper remember this: the man who spends his money to invite your consideration of his wares, backs up his belief in his goods and leaves the final decision to you.

It pays you to read advertisements. It pays you to buy advertised products.

Advertising is your protection
