90,000 users  
Are Helping to Sell Frigidaire!

MORE than 90,000 users are helping to sell Frigidaire because they have learned what Frigidaire convenience means in their own homes—because they have proved Frigidaire dependability through months and years of continuous operation and trouble-free performance—because they have proved that Frigidaire actually costs less than ice.

If you do not now enjoy the convenience of Frigidaire, talk to a friend who does. You'll learn that for no consideration would a Frigidaire user go back to ice and an ordinary ice-box. You'll learn how the most perishable foods are kept fresh by Frigidaire—how Frigidaire removes all the possible annoyance of outside ice supply—how it automatically maintains a low, uniform temperature—how it freezes ice cubes and makes frozen desserts.

Come into our display room and let us show you how easily you can have Frigidaire. Let us explain our convenient purchase plan. Let us show you the new models. Let us demonstrate Frigidaire operation. You'll be especially interested in the Model B-5-2 which can be installed for only \$245, plus a small sum for freight and installation. Greatly increased production of this model assures prompt delivery.
